Lon Nol Shuffles Cambodian Regime

PHNOM PENH, Cambodia (AP) — In another apparent concession to the Nixon administration, President Lon Nol announced Tuesday night that he will share power with three of his chief anti-Communist opponents.

The president said he also was suspending for six months both the National Assembly and the Senate, which were dominated by his Social Republican party.

Lon Nol said he was creating a "high political council" made up of himself and the three most important opposition politicians in Phnom Penh—former Premier Sisowath Sirik Matak; In Tam, former president of the National Assembly; and Cheng Heng, who was chief of state after the coup three years ago in which Lon Nol and Sirik Matak overthrew Prince Norodom Sihanouk.

"This committee's main function will be to help the president lead the country," Lon Nol said.

In Tam, leader of the Democratic party, said the purpose of the council

was to broaden the political base of Lon Nol's one-party government and unite Phnom Penh's rival political forces. He said he, Sirik Matak and Cheng Heng were "very satisfied" with the new distribution of authority promised by the president.

Sirik Matak heads the Republican party.

The Nixon administration hopes that the Communist and pro-Sihanouk guerrillas who now control most of the country will agree to cease-fire negotiations with a broader-based regime.

Following the cease-fires in Vietnam and Laos, the Nixon administration has been under increasing pressure in the U.S. Congress to abandon Lon Nol and stop the bombing by the U.S. Air Force that is the chief factor preventing a Communist military victory. Washington has been urging a sweeping reorganization of the Phnom Penh government to bring in other factions since the anti-government guerrillas have said repeatedly they would never negotiate with Lon Nol.

Cambodians And Laotians Trained For Air Warfare

WASHINGTON (AP) — Some 300 Cambodian military personnel and a lesser number of Lao are being trained by the United States in Thailand to fly and maintain cargo and fighter planes and armed helicopters, the State Department says.

U.S. officials disclosed the three-to-six-month training operation while pursuing on Tuesday a diplomatic offensive to try to end Hanoi's infiltration of men and supplies into South Vietnam.

The planes being used are C123 cargo craft, AU24 armed helicopters, and T28 trainers, which can be used as fighters. Officials said they did not know how many Lao were involved. Among the techniques being taught are logistics and radar, they said.

On the diplomatic front, Washington is appealing to the Soviet Union and to China to restrain North Vietnam. Also, the 10 nations besides the United States that agreed to guarantee the Jan. 27

cease-fire have received a formal U.S. note accusing Hanoi of "numerous and extremely serious violations."

Among the catalogue of charges by the State Department is that North Vietnam has infiltrated more than 30,000 troops, 400 tanks, and 300 artillery pieces into South Vietnam and that its agents have continued such acts of terrorism as assassinations and kidnappings.

Officials said the objective of the public accusations is to train world opinion on Hanoi. The department note was in reply to one circulated earlier this month by North Vietnam and the Viet Cong accusing Washington and Saigon of "grave violations" of the ceasefire agreement.

In neighboring South Vietnam, the Saigon command reported that Communist ceasefire violations remained at a low level and that details had been worked out with the Viet Cong for exchanging civilian prisoners.

Housecleaning Rumors Denied By White House

WASHINGTON (AP) — The White House says President Nixon has made "no decision at all" on whether to fire top-level aides as a result of the Watergate affair.

Nixon spokesmen deny reports that Secretary of State William P. Rogers has been asked to head a post-Watergate shakeup of the White House staff and that the President was in any way involved in a reported offer of executive clemency to conspirators already convicted.

The chief spokesman for the Nixon re-election drive, DeVan L. Shumway, said he was not told the whole truth at

the time he was issuing blanket denials of high-level knowledge of political-espionage plans.

And Sen. Robert Dole, R-Kan., past chairman of the Republican National Committee, said that, from his observation of "the players involved," it is entirely conceivable the Watergate plot could have been hatched without Nixon's knowledge.

The Washington Post reported, meanwhile, that the Nixon campaign committee spent \$8,400—mostly in \$100 bills—on a publicity drive aimed at fabricating bipartisan support for the President's decision last spring to

mine Haiphong harbor.

It said \$4,400 was spent on a "deceptive, apparently illegal" advertisement in The New York Times rebutting that paper's editorial position. The Post said that, although the half-page ad appeared to have been prepared and purchased by a non-political citizens' group, it actually was paid for with Nixon campaign funds.

Stating the expenditures never were reported to the General Accounting Office as required by law, the Post said the campaign also included writing and paying for telegrams of support

sent to Nixon as well as for rallies and an organized telephone campaign supporting the decision to mine North Vietnamese harbors.

The Post said the expenses were authorized by Nixon's deputy campaign manager, Jeb Stuart Magruder. It quoted an unnamed former Nixon campaign official as saying the Committee for the Re-election of the President was "totally mobilized for the biggest piece of deception—we never do anything honestly."

"Imagine the President sending himself telegrams, patting himself on the back," the Post quoted the official as saying.

Weather Woes Rise In Midwest

By THE ASSOCIATED PRESS

Heavy thunderstorms lingered in the lower Mississippi Valley today in the wake of wind, rain and tornadoes that contributed to the deaths of eight and the injury of nearly 50 persons Tuesday in Mississippi, Arkansas and Texas.

Two Army helicopters participating in maneuvers collided during turbulence and heavy rains near Ft. Hood, Tex., Tuesday. Eight soldiers died and five were injured.

Earlier in the day, tornadoes struck at Sumner, Miss., wrecking a school and injuring about 40 pupils and two teachers, most only slightly.

The students had just finished a tornado drill and were huddled in the hallways when the one-story brick-and-cinderblock school was hit. Minutes before the storm, two mobile classrooms were evacuated of their 100 pupils. Both classrooms were destroyed.

Tornadoes striking southern Arkansas earlier Tuesday injured five persons.

Funnel clouds moved across northwest Texas, extreme southwest Missouri and southern Mississippi again during the night.

Nearly an inch of rain fell in central Mississippi. A similar amount helped

swell the Mississippi River at Joplin, Mo. Flash-flood watches were posted in Arkansas and the northern half of Mississippi.

Levees on the Mississippi north of St.

Louis were topped Tuesday, flooding 30,000 acres of land. Elsberry, Mo., was evacuated as the river continued to rise.

The Army Corps of Engineers said

the record crest predicted for St. Louis on Thursday may not be reached since the water is not rising as fast as expected.

The river already has crested twice at St. Louis, on March 17 and April 6.

The flooding has been responsible for at least eight deaths, including an 11-year-old girl and her 9-year-old sister of South Roxana, Ill., who drowned Monday while wading in a creek.

Fog shrouded areas from the south Texas coast to southern Arkansas.

Fair skies and light winds produced colder temperatures from the Dakotas to the Appalachians.

Widespread showers touched the Rockies, with snow at higher levels, and light rain dampened areas from the central Plains to southern Minnesota.

Fair skies prevailed over the Far West and the inter-mountain region.

Kissinger, Tho Set Paris Talk

WASHINGTON (AP) — Dr. Henry A. Kissinger and Hanoi's Le Duc Tho are expected to meet in Paris in mid-May to discuss implementation of the Paris peace accords, White House sources said today.

This was disclosed after press secretary Ronald L. Ziegler made a formal announcement that Asst. Secretary of State William L. Sullivan and a North Vietnamese official will meet in Paris on Friday "to prepare a review of the implementation of the Paris agreements and appropriate measures to bring about the strict implementation of the agreements."

Sullivan, assistant secretary for East Asian affairs, will meet at 10 a.m. Paris time, with Hanoi's vice minister of foreign affairs, Nguyen Co Thach.

Just Tuesday the United States, in a formal note, accused North Vietnam of direct and inexcusable violations of the January Paris agreements on ending the war in Vietnam.

Sources said Sullivan and Thach

would prepare a review as a prelude to a meeting between Kissinger, President Nixon's top foreign policy adviser, and Tho, a member of the North Vietnamese Politburo in Paris, around the middle of May.

Ziegler said the SullivanThach session was to seek full adherence by all parties to the peace accord and an end to the fighting throughout Indochina.

The United States, he said, "was doing everything possible" to achieve these ends. But he noted that Washington has complained "on many occasions" about violations attributed to Hanoi.

Friday's meeting was announced simultaneously by the White House and North Vietnam. In response to a question, Ziegler said the two parties had not adopted identical language for the announcement but that he anticipated Hanoi would say much the same thing in substance.

Congress Awaits Busing Rule Before Taking Up Proposals

WASHINGTON (AP) — Antibusing measures are at a standstill in Congress, awaiting a Supreme Court decision in a key case involving consolidation of urban and suburban schools.

The case was argued before the court Monday, and a decision is expected before the justices start their summer recess in June.

At issue is whether political bound-

daries may be set aside to bring about school desegregation by merging predominantly black big-city school districts with those in surrounding counties that are overwhelmingly white.

This is what a U.S. District Court judge in Richmond, Va., ordered, but he was overruled by the 4th Circuit Court of Appeals. However, a similar order by a district judge in Detroit was upheld by the 6th Circuit Court.

The case from Richmond is the one now before the Supreme Court. The way it is decided may determine what happens to the antibusing measures pending in Congress.

The Senate Judiciary Committee held three days of hearings earlier this month on various constitutional amendments designed to bar forced busing for school desegregation and to preserve the neighborhood school.

However, Sen. James B. Allen, D-Ala., and other sponsors look for no committee action until after the Supreme Court's ruling in the Richmond case. No House hearings have been scheduled.

If the court decides that political boundaries may be erased to achieve school desegregation, Senate and House sources say they foresee antibusing measures gaining a strong impetus.

Brennan Now Carries Gun Legally

WASHINGTON (AP) — Peter J. Brennan, the pistol-packing secretary of labor, has been sworn in as a deputy U.S. marshal so he can carry a gun across state lines.

A Justice Department spokesman, acknowledging this Tuesday, said Brennan has all the enforcement rights of a deputy marshal, meaning he is empowered to make arrests and transport federal prisoners.

"Of course, he won't do that," the spokesman said, "because he's busy in the Labor Department."

But with his new title and authority, Brennan will be able to carry a pistol from one state to another.

Brennan has a gun permit in New York, where he served as leader of building and construction trades unions before joining the Nixon administration in January. However, state permits are valid only in the state where issued.

Last week it was disclosed that Brennan still carries a gun on occasion, a pearl-handled revolver tucked in a hip holster.

An aide had said the secretary usually carries it on his frequent trips between Washington and New York. "He goes into a lot of tough areas" and this saves Secret Service protection to which he is entitled as a Cabinet officer, the aide said.

Brennan has refused to say why he carries the gun.

Russia, U.S. Both Eye 'Year Of Europe'

By WILLIAM L. RYAN
AP Special Correspondent

Henry Kissinger appeals for a new Atlantic Charter, the Kremlin earnestly begs cooperation from the West, and the whole picture is one of the East-West contest entering a new phase.

The Nixon Administration says 1973 will be America's "Year of Europe." It begins to look like the Kremlin had plans for its own "Year of Europe," and recent Soviet comments suggest a large measure of satisfaction with the results thus far.

Today in Finland, representatives of 32 nations began the final stage of preparatory talks for a full-dress European security conference this summer. When the date is set, Moscow can hope to begin reaping fruit from years of patient propaganda and diplomatic labor. The prospects may account for the pleased tone of Soviet comment.

The United States will go reluctantly to the conference this summer, and for Moscow it is a victory of sorts—how much depending upon what happens later on. Recent statements of U.S. and

other Western leaders leave the impression that guards are up.

Both Kissinger and Secretary of State William P. Rogers, in speeches Monday in New York, took pains to stress the importance of the North Atlantic Treaty Organization's continuing credible posture. It has been fairly apparent from the start of the Soviet campaign on European security that NATO was the principal target. A security arrangement might suggest that détente was a substitute for defense.

The Kremlin may not expect

dramatic results at once from the conference, but getting the West to agree to any conference at all took a long, long time, and it is reasonable to assume Moscow considered the prospective gains worth all the labor.

V.M. Molotov, then foreign minister, made the original pitch for a collective European security scheme in 1954 at a Foreign Ministers' Council meeting in Berlin.

Again and again in the Khrushchev era, and even more persistently under Leonid Brezhnev, the Russians revived the European security confer-

ence campaign. Time after time world events interfered by creating high tension. Finally, the détente atmosphere of 1972 brought the preparatory conference in Helsinki.

Apart from lessening NATO's role, another important Soviet aim for the conference is indicated in press comment. One such comment in mid-April noted that "disagreements exist in particular on the question of what principles of relations between states in Europe should be included in the draft for the tasks of the committees."

"Attempts are being made on the part of some NATO states," com-

plained the periodical Za Rubezhom, "to detract from the significance of the principle of the inviolability of European borders."

In short, that means Moscow wants the conference to make irrevocable the Soviet domination of Eastern Europe.

Washington, far from enthusiastic about the whole idea of a security conference that could dull the edge of the defensive NATO sword, contended that no security agreement could have much meaning unless it provided for free exchange of people and information. That is precisely what Moscow wants to avoid.

Markets

NEW YORK (AP) — Stock market prices remained in a tailspin today, extending the steep declines of the two previous trading sessions.

The Dow Jones average of 30 industrial stocks was down close to a point at the opening and losers opened up about a 2-to-1 edge on gainers on the New York Stock Exchange.

Analysts said the declines over the previous two sessions pointed up a lack of confidence among investors in the economic outlook.

Major worries cited by brokers included inflation, a possible overheating of the current boom, and suggestions from government officials that new tax measures might be taken to counter potential economic problems.

On Tuesday the Dow industrial average plummeted 14.60 points to 940.77 on top of a 7.83-point slide Monday.

Big Board volume remained relatively light at 13.83 million shares.

Dr. Myers Speaks Out
On Sex, Drug Education

Dr. William Myers told Circleville Kiwanians that the youngest girl ever to receive an abortion in New York City came from Circleville.

He was speaking out on sex education, drug and alcohol abuse at the Monday night meeting of the Kiwanis Club which was a carry-in dinner prepared by club members' wives at the First Presbyterian Church.

In speaking of the abortion, Dr. Myers said he was "very disappointed" in local school officials for their refusal to teach sex education courses in the schools. He also lashed out at the people of Circleville for keeping their children in the dark regarding proper educations.

In speaking of drug and alcohol abuse by school age children, he noted that all children attending schools will eventually be exposed to drugs and alcohol. However, he advised parents to know the activities of their children when they are outside the house.

He also blamed schools in Circleville for failing to prepare young people to face the everyday realities of life such

subject of newsmen's privilege, and a subcommittee headed by Rep. Robert Kastenmeier, D-Wis., has met twice to try to reach a consensus.

The Senate Judiciary subcommittee on constitutional rights, headed by Sen. Sam J. Ervin Jr., D-N.C., also held lengthy hearings last month but has taken no action.

Most of the bills fall into two basic

PUCO Hearing
Set For Parcel
Service Here

A PUCO hearing on an expansion of Columbus Parcel's delivery service for Pickaway County will be held at 9 a.m. Monday, April 30 at the Commission's offices in Columbus.

While Columbus Parcel has served this area daily for some time on shipments to and from Columbus, approval of this application will provide Pickaway County with the same type service to and from Ohio points.

A. J. Tweed, secretary and development director of the firm, reported that hundreds of replies to a recent mail survey indicated a widespread interest in the proposed new service. In particular, a desire was expressed for more convenient arrangements for the occasional shipper and for fast next day delivery of those "in-between" shipments which are too large or too heavy for UPS and Parcel Post.

The three-county hearing, to be conducted by Ralph Lewitt, attorney examiner for the Public Utilities Commission of Ohio, will consist of testimonials of need by businessmen from Licking, Delaware and Pickaway Counties. PUCO regulations require evidence that the service is needed in an area before they will grant new authority to the delivery company.

Tweed emphasized that such testimonials should require no more than a few minutes.

White House
Security OK

WASHINGTON (AP) — Security at the White House is described as adequate by the two top U.S. Secret Service officials. They said it didn't seem likely President Nixon would have to use an available tunnel to escape if a mob attempted to storm his official residence.

James J. Rowley, the Secret Service Director, and Thomas J. Kelley, assistant director, testified Tuesday in U.S. District Court. The American Civil Liberties Union is challenging the legality of a regulation limiting the number of demonstrators in front of the White House.

"If the president was in the White House, they (a violent crowd) probably couldn't get to him," Kelley said. Preventing harm to the president would require "stringent and possibly violent action" by police, he added.

"I don't believe the tunnel would have to be used at all today," said Rowley, "because we (have) adequate protection."

The Secret Service has the assignment of protecting the U.S. president. ACLU attorneys contended that there is no history of radical demonstrators attempting to storm the White House and that, even if it happened, there are adequate safeguards to protect the president.

categories—one group provides newsmen with unqualified immunity from testifying about their sources before any grand jury or legislative investigation; the other offers limited immunity.

In the House, for example, a bill cosponsored by five Republicans — William S. Cohen of Maine, Tom Railsback of Illinois, Henry P. Smith III of New York, Charles W. Sandman Jr. of New Jersey and Lawrence Coughlin of Pennsylvania — would provide absolute privilege for newsmen with regard to investigative proceedings before government agencies, federal grand juries or congressional committees. It would provide only limited privilege in civil or criminal proceedings in federal courts. Newsmen could be required to disclose confidential information or sources if the court found that the material was relevant to a significant issue in the case and could not be obtained elsewhere.

Another House bill, introduced by John B. Anderson of Illinois, also a Republican, would give professional newsmen unqualified protection from federal or state court orders to reveal confidential news sources or information. Anderson said any qualifications in a press shield bill would provide loopholes for attorneys on "fishing expeditions."

The American Newspaper Publishers Association and other press groups have urged approval of an unqualified shield law.

Congressional sources say, however, that chances for such a measure are slim. "They're not going to get anything strong out of the subcommittee," said Lawrence Baskir, counsel to the Senate subcommittee.

Ervin said earlier, "I don't believe Congress will pass an unqualified privilege bill."

The U.S. Supreme Court ruled last year that the First Amendment to the Constitution does not give newsmen a special exemption from testifying before a grand jury about information gained in confidence. Several reporters have gone to jail for contempt of court rather than disclose their sources.

Man Surrenders,
Admits Murders

SANTA CRUZ, Calif. (AP) — Edmund Emil Kemper III walked into a telephone booth in Pueblo, Colo., dialed authorities in Santa Cruz and told them he had killed his mother and a woman visitor. He later said he "just got worrying about the murders" and had to tell someone.

Police converged on the telephone booth Tuesday and apprehended the 6-foot-9, 280-pound Kemper while he was still talking to Santa Cruz sheriff's deputies who had traced the call.

Pueblo authorities later said Kemper, 24, told them he had killed six other women in the Santa Cruz area. The former mental patient was being held today by Pueblo police pending extradition to California.

Santa Cruz deputies, acting on Kemper's tip, hurried to his mother's

home in the nearby coastal community of Aptos and there found the nude bodies of Kemper's mother, Clara Nel Strandberg, 52, and Sara Taylor Hallett, 59, hidden in closets.

Sheriff Douglas B. James said the two women had been killed by blows to the head with a blunt instrument and that Mrs. Strandberg's head and right hand had been cut off. The women had been dead since Saturday or longer, James said.

The sheriff at a news conference late Tuesday declined to comment on the reports from Pueblo that Kemper was quoted by Police Capt. Robert Simon as saying he had killed six other young women in this area. Santa Cruz police say they know of four unsolved coed slayings.

"We replayed a tape today in which Kemper explained each killing in detail," Simon said.

Pueblo Police Chief Robert Mayber said Kemper "was fully advised of his rights, but he insisted on making a statement."

Kemper, who was unemployed and had been living with his mother in Aptos, drove Mrs. Hallett's car to Reno, Nev., Saturday and there rented a car he drove to Colorado, deputies said.

Mayber described Kemper as—apart from his size—"an ordinary looking fellow" with a mustache.

He was an employee of the Dayton Power and Light Co. retiring in 1959 after 29 years and a member of Gregg St. Church of Christ in Christian Union.

Survivors include his widow, Mrs. Rilla McPherson Baker; one daughter, Mrs. Donald (Twana) Hawk, Lubbock, Texas; eight grandchildren; 12 great-grandchildren; one brother, F. J. Baker, Milford; one sister, Mrs. Roy (Evalene) Wolford, Circleville.

The funeral service will be 1:30 p.m. Friday at the Gregg Street Church of Christ in Christian Union with the Rev. Charles Williams and the Rev. Dale Orihood officiating. Burial will be in Bloomington Cemetery.

Friends may call at the Kirkpatrick Funeral Home in Washington C.H. beginning 2 p.m. Thursday.

Tarlton Postmaster Finalizes
Plans For Postal People Day

Postmaster Virginia Hartranft announced today that customers attending the Tarlton "Postal People Day," observance at the local post office Monday will be given attractive free souvenir envelopes.

Ceremonies will be held Monday for issuance of a unique new set of ten 8 cent postage stamps honoring two-thirds of a million postal people across the nation, including the Tarlton employees.

U.S. Postmaster General E. T. Klassen, in proclaiming the week of April 29 through May 5 as "Postal Week," called it "an appropriate occasion for recognition of the vital responsibilities assigned to the mail service and a valid time to take stock of the challenges which must be jointly met by postal people and by the millions of citizens throughout America who depend upon the mail as an essential part of their personal and business lives."

The local postmaster announced other details for the week-long observances in Tarlton.

To provide an appropriate atmosphere for Postal Week celebration, the postmaster is "dressing up" the local post office.

"Postal Week" displays provide a festive and hospitable background inside and outside the post office lobby. In addition, streamers, bunting, flags, will be used she said.

"Postal Week" posters are also going up, to draw attention to the event and tell about the new stamps.

The souvenir envelopes, to be available in a limited quantity on a first come basis at the local post office April 30, will be imprinted or "Cacheted."

In addition, the Postmaster said a quantity of cacheted envelopes will be prepared in advance bearing all 10 Postal People stamps. These "first day" covers as they are known to collectors, will be postmarked by hand with the local post office postmark and will be sold for only the actual charge for the ten stamps, or 8 cent, as long as they last.

Prison Term Ordered For Legion
Burglar; Ratcliff On Probation

A sentence of 1 to 15 years in the state penitentiary was ordered for Larry Wilson, for the burglary of the American Legion.

Wilson appeared Tuesday with David Cline on bills of information, entering pleas of guilty to charges before hearing by the grand jury.

After Wilson entered a plea of guilty to the breaking and entering charge, the court imposed the penitentiary sentence and the county prosecutor moved to dismiss the grand larceny charge also filed against him.

Nineteen-year-old David Cline, arrested for the theft of several spruce trees from the property of Victor Curry, Ashville, appeared and entered a plea of guilty to the charge. A presentence report was ordered.

Probation was continued for Terry Ratcliff, Circleville, charged with vio-

lating the court's orders by carrying a switchblade knife. Young Ratcliff appeared Wednesday morning with his attorney. He was originally placed on probation with four other youths for breaking into a coin device.

A Page Of Opinion

Forced Return

Oregon is the first state to ban non-returnable beverage containers and Vermont will be the next with a ban which will take effect July 1. Other state legislatures are considering similar action, with the verdict over effectiveness still to be decided.

The proposal has produced sharp arguments on both sides. Oregon's Gov. Tom McCall is enthusiastic about the early re-

sults, saying a highway study shows the number of discarded bottles and cans along 25 sections of highways has dropped by more than two-thirds in a three-month period.

Opponents argue the obvious effect on litter is only part of the story. They point to inconvenience to bottler, grocer and consumer in returning and storing empties and predict cost increases could result.

Glass and metal container litter may be one of the major contributors to highway debris, but they comprise only about 4 per cent of solid waste carried to municipal dumps. Non-

returnables account for nearly 70 per cent of beer and soft drink containers, indicating the major switch which will follow in consumer habits if more states adopt the ban.

Wrong Tactic

The nation's postal system has been receiving its share of lumps in Congress recently, but criticism to date may be mild compared to that which will follow the testimony of several postal union officials.

In appearances before a House subcommittee in favor of legislation to permit postal employees to strike and to give them a closed shop, the union officials handed the lawmakers what amounted to an ultimatum.

If a contract has not been signed by the time the present one expires on July 20, they indicated, a nationwide mail strike could be called — illegal or not. James H. Rademacher, president of the National Association of Letter Carriers, when asked if a strike this summer was likely, replied:

"There will not be, at least to my knowledge, a postal workers wildcat strike. I cannot as-

sure Congress there will not be a national authorized work stoppage."

If a strike should be called this year, it would not be the first postal strike called in defiance of the law. Some members of Congress may be wondering at this point why they are considering making legal what postal union officials have no compunction about doing illegally.

Job Pendulum

The days have not returned when college seniors can practically auction their impending services to an army of industrial recruiters, but neither are college graduates finding jobs as scarce as they did a few years back.

A study conducted by the

National Consumer Finance Association show 93 percent of the 1.1 million 1970 and 1971 graduates are employed, with a majority of them going directly from campus to their new jobs. Half the remainder found employment within four weeks.

Employment requisites have

a pendulum similar to those which affect other forces in society. In the return swing now evident, college graduates find employment is available to them, but only if they go after it. That is still a good way to reach any objective.

Too Much Government

By JOHN CHAMBERLAIN

My friend Kevin Phillips has been writing columns complaining about the obsolescence of the "separation of the powers" concept that underlies the structure of American government. Quite correctly he points out that Britain, Australia, and most of the West European democracies (Finland is a partial exception) have come to reject the teachings of the 18th century Frenchman Montesquieu, who championed the separation of the legislative, administrative and judicial functions in his famous "The Spirit of Laws." But what is so wonderful about the performance of European governments under their "fused" Cabinet systems that Mr. Phillips should eulogize it?

In the current battle between the Nixon White House and Sam Ervin's Senate, I have tended to take the Administration's side of the argument insofar as it affects budgetary matters and the conduct of foreign affairs. On the other hand, isn't it extremely lucky that the White House can't hobble the press? If there were a fusion of the powers we might have better budgets and worse newspapers, although there is no guarantee that it might not be the other way round. One shudders, for example, to think what a totally unimpeded Lyndon Johnson "executive budget" might have done to the country. And what would have happened if President Roosevelt had not had to reckon with Congress when he decided back in 1937 to pack the Supreme Court?

The truth is there is no magic in

either the American or the West European system of government. The British House of Commons is absolutely supreme, and has been ever since Lloyd George extracted the claws and teeth of the House of Lords. Yet no democracy in the world has had to put up with a less effective form of government than Britain's in the post-World War II period. Britain has lost its empire, its economic system has been debilitated past any quick recovery, its level of taxation has been outrageous, and the power of its labor unions to compound the evils of inflation has been horrendous. Britain would assuredly be in far better shape today if the unfused and "undemocratic" House of Lords had preserved its veto powers.

As for the countries on the European continent, the "fusion of the powers" as it has been practiced in Italy, France, and West Germany has been no panacea for anything. The Italians are in a constant state of muddled crisis. The French have had some stability under the Gaullists, but they have certainly had their troubles in Indochina and Algeria, and the French students have been as intractable as ours. Chancellor Willy Brandt now runs things with a high hand in his "fused" legislature in West Germany, but his whole adventure in Ostpolitik may end by weakening NATO and provoking the "Finlandization" of all of Western Europe.

Montesquieu did not misperceive the genius of the English system when he was writing the book that had such an

influence in 18th century America. True enough, even as Montesquieu lived the Cabinet form of government was turning the British monarch into a ceremonial supernumerary despite George III's divine-right pretensions. But the House of Lords was very much alive and kicking until well into the 19th century, with its temporarily restraining veto over what the Commons wanted to do in a hurry. The House of Lords was the equivalent of our Supreme Court.

The big trouble with parliamentary governments of both the American and West European types is that they try to do far too many things for people that should be left to the individual or to voluntary citizens' organizations. Price control didn't work under the British "fusion of the powers" and it won't work under the U.S. separation of the powers. Socialized medicine means higher costs and fewer hospitals no matter where it is practiced. The Welfare State is onerous in Sweden, which has Cabinet government; it will be onerous in America no matter who promotes it. Under our divided theory of the powers Nixon is at least doing something to check the inflationary draft that a proliferating welfareism has caused.

The cure for our troubles is not to tie Congress and the Executive together under a fusion of power. Without checks and balances we might do well if we were lucky enough to get a philosopher for a leader.

Today In History

By THE ASSOCIATED PRESS

Today is Wednesday, April 25, the 115th day of 1973. There are 250 days left in the year.

Today's highlight in history:

On this date in 1945, delegates of 45 nations met in San Francisco to organize the United Nations.

On this date:

In 1599, Oliver Cromwell, who became lord protector of England, was born.

In 1859, construction of the Suez Canal was formally begun.

In 1898, the United States declared war on Spain.

In 1901, New York became the first state to require licenses for cars.

In 1917, China entered World War I against Germany.

In 1959, the St. Lawrence Seaway was opened to shipping.

Ten years ago: Soviet Premier Nikita Khrushchev, who was 69, indicated that he was planning to retire.

Five years ago: Arthur J. Goldberg resigned as chief U.S. representative to the United Nations. President Lyndon B. Johnson nominated former Secretary of State George W. Ball to replace Goldberg.

One year ago: The White House disclosed that presidential aide Henry A. Kissinger had made a secret visit to Moscow.

Today's birthdays: Singer Ella Fitzgerald is 55. Ballerina Melissa Hayden is 45.

Thought for today: Never give advice in a crowd — Arab proverb.

"They replaced so many people we've got nobody lower than a vice-president to send out for coffee."

Speaking Of Your Health

by Lester L. Coleman, M.D.

My sister had a bad experience recently when she was given penicillin. She had had penicillin before and it didn't bother her.

Is it possible to develop an allergy to a drug once you have taken it?

Is there any way of finding out in advance if it is safe to take penicillin?

If penicillin causes this allergic reaction why haven't doctors discarded it in favor of some of the newer antibiotic drugs?

Mr. M.T.G., Okla.

Dear Mr. B.:

Unusual reactions to penicillin occur occasionally. Similar reactions can follow the use of sulfa drugs and all other antibiotics.

In fact, all kinds of drugs, no matter how apparently safe, can produce an unexpected response in highly sensitive people.

For this reason doctors warn patients to stop taking any new drug as soon as an unfavorable reaction is observed.

When once a person has had a severe reaction from any drug the doctor should be told about it so that he can make a record of it and avoid its use.

Hospital charts always indicate with red stickers those drugs to which the patient is allergic. This is an important safety rule.

Some people who have taken penicillin for a long time without any reaction may suddenly become highly sensitive. Here again, if the slightest unusual reaction occurs, the drug should be stopped.

A great many tests are being tried to learn if someone is allergic to penicillin. Some of these tests are effective

and can prevent unpleasant reactions to penicillin.

Many of the new antibiotics are almost as effective as penicillin in the control and cure of certain bacterial infections. These can be used, or in combination with sulfa, when there are particular hazards in the use of penicillin.

If penicillin is the only antibiotic that can cure a specific infection, it should be given to very sensitive people in small, graded doses. This usually reduces the allergic responses and still gives the patient the advantage of penicillin when it is considered the ideal antibiotic of choice.

If cirrhosis of the liver has been diagnosed in a person who has been drinking excessively, can the liver ever again return to normal?

Mr. P.S.W., Tex.

Dear Mr. W.:

Cirrhosis of the liver is a condition in which scar tissue forms and impairs the normal functioning of the liver. One of the major causes of some types of cirrhosis is alcohol.

Since the liver is the clearing house for most toxic substances of the body, all other organs depend on it. It is remarkable that the liver can continue to function even when a good part of it has been scarred by cirrhosis.

When the condition is detected early, and when alcohol and other toxic substances that cause the cirrhosis are removed, the liver often has an excellent chance to partially restore itself and to continue its work as the body's chemical factory.

According To Boyle

By HAL BOYLE

NEW YORK (AP) — A man with too many worries is like a man with too much money. They can go to his head and give him trouble.

A man with too few worries is like a man with too little money. He doesn't get much sympathy or attention.

One way to keep your worrying in balance is to weed out periodically the worries you can't really do much about or don't feel excited about anyway.

For example, here are a few worries I have decided not to fret about — at least for the moment:

Scientists expect the climate to change slowly during the 21st century. But will it get colder or hotter? I'm going to let posterity handle this problem.

Why didn't anybody put his finger in the dike at Watergate?

Will women's skirts go higher or lower? When?

Isn't there some way to make professional athletes happy besides giving them more money than they know what to do with gracefully?

If the government puts a tax on breathing, will it do so at the source? Will we all have to wear tax meters on our noses? Well, then, will it be illegal to breathe through your mouth?

What new hobby will Frank Sinatra

take up to cheer his golden years?

From what you have seen of it so far, when do you think the younger generation will pay off the national debt?

Why do psychiatrists, who have to think a lot, also tend to drink a lot?

Who was the bigger liar — the guy who named near beer or the guy who named free love?

Isn't it really high time that somebody did something about it all, whatever it is?

B52s Pound Cambodia Reds

PHNOM PENH, Cambodia (AP) — Waves of American B52 bombers made their heaviest attacks in weeks around Phnom Penh Tuesday in efforts to ease increasing Communist pressure on the Cambodian capital.

The giant bombers dropped their 30 tons of explosives a few hours before dawn, awakening the city's residents and rattling their windows.

The targets were Communist troop positions 11 to 20 miles southeast of Phnom Penh along Highway 30 and around Takeo, a besieged provincial capital 39 miles south of Phnom Penh.

The Cambodian military command said the Takeo garrison "repulsed many ground attacks by the enemy" and inflicted "serious losses." Several government troops were reported killed or wounded, but no figures were given.

In Bangkok, the government of Thailand said it will not send troops into Cambodia but will continue to support the government of President Lon Nol.

Lt. Gen. Kriangsak Chamandand, the Thai deputy chief of staff, made the statement in response to a report by Hanoi Radio that the United States intends to introduce Thai troops into the Cambodian fighting.

Report Explosions On Isle Of Cyprus

NICOSIA, Cyprus (AP) — Explosions during the night wrecked two parked cars in Larnaca, on the south coast, ending an unofficial pre-Easter truce between supporters of President Makarios and the underground guerrilla leader, Gen. George Grivas.

It was the first violence reported in nine days. One of the cars belonged to the honorary Swedish consul in Larnaca, businessman Demetris Haholias.

Belated greetings to Ann Moss on April 20 — it kind of slipped by me for which I am sorry.

Easter — a time of Christian commemoration and in many homes a day of family togetherness and so it was in our town.

Mrs. Bertha Porter, who just the day before reached the notable age of 88, and her companion Lillian Hess were among the houseful of guests to enjoy a bountiful dinner at the home of Art and Sue Dick of near Five Points. Mrs. Porter's daughter Frances and her husband Richard Trump of Circleville had been with her on her birthday.

At the home of Una Higman, members of the family getting together were Jack and Marilyn Armentrout, Becky, Peggy and John of Fremont (they spent the weekend), Judy and Dick Speakman of Clarksburg, Lowell Higman and his three — Lora, Sam and Tom of Washington C.H. Another daughter, Myrna Hosler of Circleville was unable to join the group since her young son Brent was a victim of the chicken pox.

Mr. and Mrs. Clarence West prepared dinner for Mr. and Mrs. Orville West, Vicki and Ricky of Roundtown, Tom and Jeanette West Spiller and Tommy of near Fox. Four generations breaking bread together!

Harry and Emma Puffinbarger entertained on Saturday evening with a wall-to-wall family party and their guests were Sgt. Dana Lee Steinhauer of Washington D.C., Larry and Kathy Steinhauer of Marion; Noah and Mabel List of Pherson; Kathryn Steinhauer of Clarksburg; Clara Litter of Chillicothe; Jonda Steinhauer and her college buddy Marlie Griffin of Otterbein; Gene and Glenna Steinhauer of our village. Dana, Larry and Kathy overnights with grandma and Harry. Dana Lee is a member of the Air Force Singing Sgts., a renowned singing group and they are scheduled to appear on the Mike Douglas afternoon show sometime the first part of June. Hopefully we will have the exact showing in enough advance time to alert everyone to tune in since Dana is more or less a native son. His parents, Marion and Gretchen Steinhauer and their children lived in our town and Circleville for several years before transferring first to Marion, Ohio and then to Winter Haven, Florida.

Across the street good neighbors A. J. and Juanita Cook and Shana Wills had daughter Sally Whitt and her hubby Lowell and their Brenda, Betty Jo and Barbara of Amherst who came in on Friday. The Whitts are camper style travelers.

Oh, for pete's sake, while writing about the Puffinbargers I meant to go on and tell you that on Sunday they drove to Columbus to be with P. K. and Margaret Fulton and they all were the dinner guests of Gary and Sue Beougher. Busy weekend for the Puffinbargers! That's the way they like their life. Never any dull moments.

Ray Frazier, Raymond and Helen Frazier Shoemaker drove over from their Angola, Indiana homes to be with their dad, Arthur Frazier. Ray returned home on Sunday and the Shoemakers planned to return home on Tuesday.

A combination Easter dinner and birthday celebration for four year old Kathy was the order of the day at the home of Mike and Marsha McCafferty. Feting the red haired charmer were grandparents Mr. and Mrs. George Wharton from Columbus (maternal) Mike and Ruth McCafferty of Circleville (paternal); great-grandmommy Hazel Peters of Roundtown (maternal), Aunt Judy and Uncle Glenn Arthur also from Columbus and Kathy's sisters, Kelly and Kim.

A bit of nostalgia got all mixed up with the joy of being together for Bob and Pat Metzger, Lori and Crystal, Tommy and Mae Carter, Carl and Mary Gearhart — the reason? They drove to Celina to be with Kathryn (Mrs. Marion) and Barbara Carter and this will be their last get together at the Carter's Celina home since it has been sold and by the first of May these two will join with papa Marion and

daughter Diana who have already established residence in Minnesota.

Up at the crack of dawn to prepare a family feast was Mrs. Omer Lemming. After church she set the table for Mr. and Mrs. Dean (Wilba) Parker, Mr. and Mrs. Robert (Wilma) Cramer, Mr. and Mrs. Jim Grigsby and family all of Columbus; Mr. and Mrs. Harold Lemming of Buckeye Lake and Mr. and Mrs. Harmon Lemming of our town. In the afternoon a granddaughter and her family, Mr. and Mrs. Jerry Martin and children of Wilmington, Delaware came "a-calling". The Martins plan to return again Wednesday for a longer visit with grandmother. On Friday afternoon preceding Easter another granddaughter Nancy McDonald, her husband Robert and their children from Warsaw, Indiana had pleased Grandma with a visit.

Up the street at the Bill and Polly Buskirk homestead guests were Mary Buskirk, Ida Buskirk, Mr. and Mrs. Okey Skaggs, Ralph and Jean Gumm and Kathy all of Circleville and helping mom and dad were Gina, Vicki and Billy Buskirk.

Having Easter dinner with H. H. and Mary Lee Stevens, Bunny and Lee were Ralph Hennen and Davy Bob Stevens of Columbus, Scarlett Green of near Orient and Joyce Stevens a student at Miami University. On Palm Sunday the Stevens hosted at dinner Dr. and Mrs. James G. McKernon of Huntington, W. Va., and Mary Lee's mother, Mrs. J. R. Bright. Mrs. McKernon, whose husband is Chief of Psychology Services at the V.A. Hospital, is a niece of Mrs. Bright. Friends of Mrs. B. will be pleased to learn she is doing quite well recuperating from a broken hip incurred a while back. She has some "down" days but her effervescent personality comes to the fore and we all hope those bad days are fewer and farther apart as each day comes.

Mrs. Inez Lingo journeyed to Wooster to spend several days Easter vacation with her daughter, Mrs. Fern Melinger and her family.

Going south to spend Easter with their daughter Jeannette, husband Jack Lovensheimer and images Lisa, Brian, and Craig were John and Edna West. The Lovensheimers are Florence, S.C., domiciled.

Mrs. Mary Alice Greenwood was wined and dined by her son and daughter-in-law Don and Sherry Greenwood on Easter Sunday.

At our household niece Cindy McCleure of Londonderry brightened the corner for the weekend. She came to the village via Becki (Easterday) who had overnights Friday with grandmother Mildred Hardman who lives in the Chillicothe area. Cindy returned home Monday with transportation provided by cousin Marc and that Chuckie Graffis.

The American Legion Auxiliary Easter egg hunt on Saturday morning at the village park was a huge success counting the number of children who happily hunted for the decorative metal type candy filled eggs. They will be great collectibles for the "hunters" to have as keepsakes of a happy childhood moment. The Auxiliary is to be commended for their idea!

Easter morning worshippers at the United Methodist Church thrilled to the magnificent cross filled with Easter lilies. Each lily served in memory of dear departed ones and those folks having one so dedicated were Mr. and Mrs. Harry Keller and Lana, Mrs. Ethel Kridler, Mr. and Mrs. Norman Leist, Mr. and Mrs. Roger Clark, the Smith family, Mr. and Mrs. Harry Puffinbarger, Jr., Mrs. E. P. Follrod, Mrs. Fred Tipton and Tom, Bill and Kathleen Murch.

Mobile Bank Aids Senior Citizens

COLUMBUS Ohio (AP) — Once a month, senior citizens around Columbus anxiously await a visit from an armored truck carrying money.

The truck is part of a convenient bank on wheels for the city's elderly who cannot get out to cash checks and pay their bills.

The truck, accompanied by uniformed guards and three bank tellers, makes the rounds of the city's six senior citizen centers after Social Security, welfare and retirement checks have arrived.

The tellers cash the checks and make out free money orders to pay

Ohio River Barge Mishap Dangerous

CINCINNATI, Ohio (AP) — A four-mile section of the Ohio River was closed to traffic today after gasoline-loaded barges smacked into a concrete understructure at a construction site.

The site is the new Interstate 275 bridge about 10 miles east of Cincinnati, the U.S. Coast Guard said.

Coast Guard Lt. Cmdr. Marvin Bromen said gasoline was leaking from two of the barges which he said were stuck on the concrete understructure.

The tow boat involved, the W. P. LeBeauf, and two barges were not damaged, Bromen said.

"They were coming down in a heavy fog at about 7:30," Bromen said. "They struck the cofferdam—the understructure—and two barges of the tow are still on top of this cofferdam, damaged."

Rudy Sommer, the Coast Guard's commander of the port for Cincinnati, was at the scene, inspecting damage.

"All traffic is being kept away," Bromen said. "We have no idea how much gasoline is leaking."

Band Concert
Entrepreneur band director Jim Kibby announces that the Spring All Bands Concert will be held on Mother's Day, May 13 beginning at 3 p.m. This includes the seventh, eighth grade bands, the Westfall high school concert band and the lab band. What an afternoon's entertainment this promises to be!

By the way, the band carry-in dinner will be held on Wednesday, May 16 at 6:30 p.m. The usual rule of thumb will be adhered to — rolls and beverages furnished by the Boosters — everyone else bring two or three (or more) food offerings PLUS table service (plate, drinking vessel, silverware).

The big noise around here is the upcoming Athens Music Festival featuring all those "tuff" rock bands from all over the U.S.A. Having already purchased their tickets for the weekend "swing" and can hardly wait are Birly (our 17 year old), Vincent Redman and Gail Underwood and their friends from other locales.

Think About: A devoted friendship is never without anxiety (De Sevigne)

bills for utilities, rent, doctors and medication.

"We look forward to it," said Betty Edgerton, 68. "It means so much for the people who are handicapped, in poor health, crippled, blind and deaf."

"It's such a convenience. I bring my checks, pay my rent and get my cash to operate for a month."

Margaret Bowman, 65, agreed. "It's a financial aid for those of us on limited incomes. We don't have to take out \$5 a month from our budgets to pay for the money orders."

The program was started last month

by Zonta Club of Columbus, an international service organization. Railroad Savings and Loan Co. and Huntington National Bank donated three tellers to the project.

Ruth Walker, Zonta service chairman and assistant vice president at Railroad Savings, said the club pays for the armored truck and the uniformed guards who travel with the bank on wheels.

The cost of the project will be nearly \$3,700 a year.

"There are 1,670 residents at the six senior citizen centers," Mrs. Walker

said, "and 60 to 70 per cent of them have taken advantage of the program."

She said the program was started because many elderly citizens do not have checking accounts and are easy prey for muggers and purse snatchers when returning from a bank with cash.

Rusty Freighter Laden With Drugs

SAVANNAH, Ga. (AP) — More than 1,300 pounds of marijuana and an estimated \$1.4-million worth of cocaine has been seized by federal agents who waded through bilgewater and crawled through narrow pipes in a rusty Latin American freighter, authorities said.

The crewmen of the freighter "think it's a game," the agent in charge of the search said.

"We tear something up and they hide something in it," said Ira Morris, the senior U.S. Customs agent. "It's been like that since we started."

"These drugs were hidden by masters," said another agent, Bill Hinton. "They hid it in tubes deep in the bowels of the ship, under the engines and in fuel tanks that could be flooded if we got too close."

Kentucky Rules On Black Retirement

FRANKFORT, Ky. (AP) — The attorney general's office says retired black teachers in Kentucky can't be paid higher retirement benefits to make up for past inequities in their pay.

Eggs For Budget Juggling

SANDWICH—More than a snack, this sandwich is a full meal with ham, cheese, sliced egg, onion, and pleasing condiments.

By ALICE DENHOFF

Everything takes on a new sparkle and vitality in the spring, and family menus should enjoy the same lift. And this without damaging the budget. Luckily for the consumer, there is a good protein buy that is ready to do its share—eggs. Even if eggs are just a little higher in price, the egg is still a budget bonanza for any meal of the day, for soups, snacks, salads, main dishes, desserts.

A good sandwich is a sensible snack, a fine deal for lunch or supper. Try:

Special Egg Club

- 4 hard-cooked eggs, chopped
- 3/4 cup mayonnaise
- 2 tablespoons sliced green onions
- 1 tablespoon prepared mustard
- 2 tablespoons sweet pickle relish
- 1/4 teaspoon pepper
- 1/2 teaspoon salt
- 12 slices baked ham
- 6 slices Swiss cheese
- 3 hard-cooked eggs, sliced
- Lettuce

Combine eggs, mayonnaise, onions, mustard, relish, salt and pepper; chill. At serving time, arrange 2 slices of rye bread on each serving plate.

Place slice of ham and slice of cheese on one slice of bread. On other slice arrange lettuce leaves and tip with mound of the chilled egg salad. Garnish with hard-cooked egg slices. Serve with pickles if desired. Makes 6 generous meal-sized sandwiches.

Here's a fine, filling brunch special:

Country Brunch Treat

- 4 slices Canadian-style bacon, broiled
 - 4 sandwich buns, split, toasted and buttered
 - 4 eggs
 - 1/4 cup milk or cream
 - 1/2 teaspoon salt
 - 1/4 teaspoon pepper
 - 1 teaspoon butter or margarine
- Mix eggs, milk, salt and pepper with fork. Heat butter in skillet (about 8 inches) over medium heat just hot enough to sizzle a drop of water. Pour in egg mixture. As mixture begins to set at bottom and sides, gently lift cooked portions with a spatula so that the thin, un-cooked part flows to the bottom. Avoid constant stirring. Cook until eggs are thickened throughout but still moist, 3 to 5 minutes.

Willing Workers

Class Views Slides

Willing Workers Class of Pontius United Methodist Church met recently in the home of Mrs. Floy Brobst, Route 5.

Mrs. Russell Palm was in charge of devotions. She read "Easter Story" and Mrs. Paul Barnhart read "Easter Thoughts." Mrs. Palm told the story, "The Legend Of The Dogwood," read the poem "Friends" and closed the devotions with prayer.

Mrs. Walter Richards, president, conducted the business meeting. Notes of thanks were read from absent members. Mrs. Richards introduced Mrs. Charles Walters who showed slides and told of her and Mr. Walters trip to Ethiopia. She was dressed in a native costume and exhibited articles she had acquired in her travels.

Several members received Silent Sister Easter gifts. Mrs. Robert Brobst gave each member a plant that she had started along with an Easter favor and then served refreshments.

The May meeting will be in the home of Mrs. Marguerite Stevison, 422 Watt St., with Mrs. Weldon Heffner as hostess.

MISS KAREN SUE PETERS

Miss Karen Sue Peters, Stephen Logsdon To Wed

Mrs. Chester Peters of Ashville, announces the engagement of her daughter, Karen Sue, to Stephen Hathaway Logsdon, son of Mr. and Mrs. Dale Logsdon of Route 2, Ashville.

Miss Peters, daughter of the late Chester Peters, is a graduate of Teays Valley High School and is a sophomore at Ohio University. She is employed at Sears in Circleville.

Mr. Logsdon, also a graduate of Teays Valley, is stationed with the United States Air Force at Langley Air Base in Hampton, Va., following a tour of duty in Vietnam.

The wedding will be an event of July 14th at the Village United Methodist Church in Ashville.

Personals

Susan Demjen of Wilmington, daughter of Mr. and Mrs. F. J. Demjen, 1058 Lynwood Ave., recently spent a five day vacation in Titusville, Fla. Susan visited with friends and her aunt and uncle, Mr. and Mrs. George Griffin.

Pro-Burgers On Market

CINCINNATI, Ohio (AP) — Hamburger has a new competitor at meat counters in Ohio.

The Kroger Co. said it is putting a product called "Pro-Burger" on the market this week. The product is a mixture of 75 per cent hamburger and 25 per cent textured vegetable protein, the company said.

It will go on sale at 99 Ohio-area Kroger stores for 79 cents a pound.

Kroger said features of the product are a relatively low price and retention of hamburger protein levels.

Soybean flour from which the product's vegetable protein portion is made assumes the flavor of the hamburger when "ProBurger" is cooked, the firm said.

Egypt Adopts War Measures Against Israel

By THE ASSOCIATED PRESS

The Egyptian Cabinet has adopted a series of measures, including establishment of an operations room, to prepare the country to face any emergency that may arise from a battle with Israel, the Egyptian press said today.

Reporting on a Cabinet meeting Monday, the controlled Cairo newspapers said the major decision was to "place all the resources and institutions of the state" at the service of the armed forces.

Interior Minister Mamdouh Salem also ordered camps to be set up to train Egyptians for popular resistance operations, an official statement said. Parliament approved a law over the weekend making military training obligatory in high schools and universities. Women will take a compulsory nursing course.

In Tehran, the capital of Iran, U.S. diplomats stationed in the Middle East and South Asia ended a two-day secret conference amid rumors of a possible change in American policy toward any new round of warfare between Israel and the Arabs.

Egypt's announced intention to prepare for another fight, though often made in the past without result, has generated new concern for peace in the Middle East.

Tehran newspapers reported the U.S. mission chiefs discussed, among other things, the possibility of an Arab oil boycott, of a new Middle East war, of more Palestinian terrorism and of increased rivalry between East and West for influence in the area. There was no official confirmation of the reports.

Computers Help Fight Fires

GLASGOW, Scotland (AP) — Computers are going to help fight fires here.

Small facsimile printers to be installed this summer in the cabs of 40 fire engines will receive by radio and print out detailed information on floor plans of the burning building and its known fire hazards while the firemen are on their way to battle the blaze. Two Honeywell computers make up the heart of the system which George Cooper, Glasgow's firemaster, believes is the most advanced fire-fighting system of its kind in the world.

The system will ultimately contain data on 10,000 properties including building plans and layouts, known hazardous substances and how to handle them in the case of fire. The city intends eventually to link 400 fire alarm boxes directly to the computer system so that when an alarm is signalled, the computer dispatches the nearest fire crew directly, without human intervention.

Gypsies, a nomadic people found in almost every continent, first appeared in Eastern Europe about the 15th century.

French Government Decides Flea Bag Hotels Have Value

PARIS (AP) — The French government has decided there's long-term virtue in the flea bag hotels of Paris.

After five years of offering special financial inducements to builders of 1,000-room plastic palaces, the state hotel credit agency is cutting off incentives to the deluxe hostels and for the first time offering subsidies to anyone who will put up the kind of hotel a \$5-a-day tourist can afford.

The long Easter weekend showed what brought the change. The Ritz and the George V had plenty of space, but about 5,000 of the city's 300,000 visitors had to sleep in cars or public buildings, in rooms costing much more than they intended to pay or at inns as far as 75 miles from Paris.

The little hotels, the friendly flea bags that traditionally handled most of the budget tourist trade, are dying at the rate of about 20 a year. Their owners, who need 80 per cent occupancy year-round to make money, often find it easier to sell out to real estate developers who turn the buildings into offices or apartments.

"So what?" a government tourist office official said at this time last year. "You just can't hold back progress. Why, a lot of those little hotels were sordid little places really."

But the government hotel policy came under attack. The big, new hotels were described as charmless and without anything specifically being done, nothing specifically Parisian.

What was being done, newspapers asked, for the student or family that

couldn't pay \$30 a day for a room?

Under the new government decree, a rebate of \$900 will be offered for every new hotel room built in the lowest price category, which until this month got no rebate at all.

"The idea is OK, but it still won't do the job," said 30-year-old Rolland Buffat, who has a small, elegant hotel not far from Notre Dame. "The subsidy is still bigger if you make your rooms more expensive. Nobody I know wants to start a philanthropic hotel chain, and the tendency is always to put a new hotel in the most expensive category possible."

Buffat thinks the only little hotels that can survive are those "with character," but the ones with "no lights in the hall and the old man at the desk who growls at you are doomed, whatever they cost. No one has dared to do a big but inexpensive hotel. I think you could do it—100 rooms but cheap."

Investigate Oil Spill In River, Reservoir

SHELBY, Ohio (AP) — The Ohio Environmental Protection Agency says it is investigating an oil spill into the North Fork of the Black River and Charles Mill Reservoir.

An ERA spokesman said the crude oil was from the Ohio Power Co. transformer at Vernon Junction, where it spilled from a lagoon. The EPA is supervising clean up operations.

Answers To Questions About Social Security

(Q) I know that social security taxes went up this past January, but can you tell me what the increase was?

(A) The tax rate increased from 5.2 per cent to 5.85 per cent for employees and from 7.5 per cent to 8 per cent for self-employed people. In addition, this rate applies to the first \$10,800 in earnings in 1973, instead of the first \$9,000.

Most of the increase was necessary to keep the hospital insurance part of Medicare on a sound financial basis and to pay for Medicare protection for disabled people under 65.

(Q) In 1972, I didn't have enough medical bills under Medicare to file for payment. Now I have some bills, and my sister mentioned something about using my medical bills from October, November, and December of last year to count toward the deductible for this year. Is she right?

(A) Yes. If you had medical expenses in the last 3 months of last year that could have counted toward your deductible for 1972, you can also use them to help meet this year's deductible. Be sure to send in all the bills for covered services you received in October, November, or December of 1972 with your bills for this year.

(Q) I'll be 72 in August. Although I signed up for Medicare when I was 65, I couldn't get any monthly retirement benefits because I was working and earning too much. However, after I'm 72, I understand I can keep right on working and still get my full benefits.

Do I have to apply for these benefits after my 72nd birthday?

(A) No. Your payments will start automatically with the month of your 72nd birthday. Since you continued to work without getting benefits after 65, you also now qualify for special delayed retirement credits. These credits will increase your benefit amount one per cent for each year — or one-twelfth of one per cent for every month — after 1970 that you worked and didn't collect monthly payments.

(Q) I'm an undergraduate college student and I've been getting monthly social security benefits since my mother died last year. I'll be 22 two months before the end of the semester in which I'll get my degree. Will my student checks continue?

(A) Yes. Under recent changes in the social security law, a student's monthly payments can continue past 22 to the end of that semester or quarter (depending on which system his school operates) if the student has not yet received his bachelor's degree. If a student's school does not operate on either a semester or quarter system, a student could get benefits for up to 2 months after his 22nd birthday.

NEW MEN—New deputies added to the Pickaway County Sheriff's Department communications section are James R. Fite, Jr. (seated), and Garry W. Betts.

Sheriff Adds Two Deputies To Communications Section

Two new deputies have been added to Sheriff Dwight Radcliff's communications section to aid veteran dispatchers John Bost and Russ Adams.

The men, both who have previous communications or law enforcement experience, are Circleville native Garry W. Betts, and James R. Fite, Jr., from Pike County.

Betts, 26, who lives at 565 Mowrer Rd. with his wife, Mary, is a graduate of Circleville High School. He was employed as a Deputy Sheriff March 1, 1973.

He was a communications officer

during his three-year tour of duty with the U. S. Navy prior to becoming a deputy.

Fite, 22, and single, will assume his duties as midnight to 8 a.m. dispatcher Wednesday. He was a criminal investigation specialist with the U. S. Army military police in Thailand and was a deputy sheriff with Roy Ross's Pike County Department before joining the local office.

While working in Pike County, Fite was presented a merit award for the apprehension of criminals from the Buckeye State Sheriff's Association and the Ohio House of Representatives.

Speed Is King In Conrad Family

SPACE CENTER, Houston (AP) — Speed is king at the home of astronaut Charles "Pete" Conrad Jr. The space-man's wife, Jane, has more to worry about than just her husband's vocation.

Besides Conrad, who is getting ready for the May 15 start of his fourth space flight, Skylab 1, there are four sons—all motorcycle, racing and flying enthusiasts.

"It seems to be an inborn thing," says Mrs. Conrad of the family fascination with speed and fast machines. "Pete used to race motorcycles when he was 15 or so, and I guess my boys all took after him."

Jane Conrad has watched her husband rocket into outer space three times. On Gemini 5 and Gemini 11, he orbited the earth. On Apollo 12, he became the third man to walk on the moon. And as commander of the 28-day Skylab 1 mission, he will spend four weeks in space, longer than man has yet attempted.

When he is not preparing for a space trip, Conrad drives race cars and has placed high against professional drivers. He once raced power boats but gave that up as too dangerous. And Conrad routinely flies crosscountry in a Space Agency T38 jet.

Now the Conrad sons—Peter, 18; Thomas, 15; Andrew, 13; and Chris, 12—are racing motorcycles of their own. Peter also is a pilot and flies solo around Texas in rented airplanes. Andrew is anxious to do the same.

Mrs. Conrad says she doesn't worry a lot when her husband is racing cars or flying in space: "There are a lot of people looking out for him then."

"The only thing I worry about is his flying back and forth across the county in a T38. It's irrational. It's just a hang-up I have, I guess."

Mrs. Conrad's life around the roar of racing machines and the ultramodern

hardware of space is in marked contrast to her girlhood.

Born Jane Dubose, she grew up on a 3,000-acre cattle and goat ranch near Uvalde, Tex., west of San Antonio.

"My kids don't believe me when I

tell them I chopped wood when I was growing up," she says. "We had a wood stove. We didn't have electricity until I was 15, and they just do not believe we had to fill kerosene lamps, trim the wicks, clean the chimneys and

study by lamplight."

Mrs. Conrad attended a girls' boarding school in San Antonio during her high school years. After graduation, she went to Bryn Mawr College and met Conrad, a student at Princeton, during her first year there.

Mrs. Conrad remembers the hectic early days of the space business. On Conrad's Gemini 5 mission in 1965, live television cameras jammed the astronaut's front lawn.

"The kids had never seen anything like it. It was like a three-ring circus going the whole time," she says. On Skylab 1, though, she believes things will be different.

"I'll probably go to my family's ranch for a week, to break up the time," Mrs. Conrad says. "It's a good place to relax."

Ohio Construction Hurt By Freeze

COLUMBUS, Ohio (AP)— State officials say nearly \$200 million in housing construction in Ohio apparently has been halted by the Nixon administration's moratorium on federally subsidized housing programs.

Officials of the Ohio Department of Economic and Community Development said Tuesday at least \$25.7 million in federal aid may be lost in the Appalachian area of the state, where 40 percent of the housing is substandard.

William M. Hale, director of staff services for Gov. John J. Gilligan's commission on housing, said the lack of federally subsidized housing programs could have an adverse effect on state plans to attack urban and rural housing problems.

Realty Probe Brings Demand For Shaul's Job

CLEVELAND, Ohio (AP) — Ohio Real Estate Commission member Paul Everson says state commerce director Dennis Shaul is "deliberately trying to cloud the issue and cause confusion" in his attacks on the commission and that Shaul should be fired.

Everson said Monday night that Shaul's knowledge of administrative laws and procedures are "quite naive."

"Everything he does smacks and has a flavor of being illegal," said Everson. "I think the governor should ask for his resignation."

Everson is the only Republican member of the three-man board which Shaul has criticized for its licensing practices, particularly the issuance of a broker's license to former Gov. James Rhodes just after he left office.

Shaul contends that the 45-minute oral exam Rhodes took was illegal, but Everson insists "there's no place in the statute where it says a written examination must be given."

Shaul suspended Real Estate Commission official J. David Maffeo Monday for administering exams to his wife and father. Shaul also said he wants a commission set up to investigate all questionable exams and licenses given in the last five years.

Everson branded Shaul's attacks as without legal basis, saying the commission "has a right to evaluate the circumstances of a person on a case basis."

Most applicants are given a six-hour exam, Everson said, but there are exceptions. Everson admitted, however, that the Rhodes case "was not a common situation" and that no one has received a license that way since "to my knowledge."

Everson defended the issuance of a license to Rhodes, calling it "right, legal and proper."

He said the board questioned Rhodes in the three areas required.

Shaul has held one-man hearings lately in an attempt to grill commission members on licensing practices. Everson called the meetings the "kangaroo tactics of a frivolous politician out for his own personal ambitions."

Expos Explode In 9th; Topple Cincy Reds, 7-2

CINCINNATI (AP) — Boots Day never had been in the situation before and doesn't want to face it again, but he made the most of it when he was thrust into the fire.

A reserve outfielder, Day came off the bench with two strikes against him and delivered the key hit as the Montreal Expos exploded for seven runs in the ninth inning to hand the Cincinnati Reds a 7-2 baseball defeat Tuesday night.

A two-run single by Johnny Bench in the bottom of the eighth had broken a scoreless tie and given the Reds and Don Gullett a 2-0 lead.

But Montreal rallied in the ninth, using five pinch-hitters to forge the comeback.

Tim Foli and Ron Woods singled to put runners at first and third with none out, and Reds' manager Sparky Anderson called on reliever Clay Carroll when Gullett fell behind, 1-2, in the count to Hal Breeden.

Montreal's Gene Mauch countered with a managerial move of his own, sending Day up to hit for Breeden.

"That's about as tough a job as you can give a man," said Mauch.

Day smiled and agreed.

"That's the first time I've ever been in that situation," he said, "and I hope I never face it again."

Day wasted little time. He jumped on Carroll's first pitch, a humping

slider, and lined it into the rightfield corner for a double.

"I told myself not to take anything when I went up there," said Day, who has three pinch hits in five tries this season.

"The pitch was right there," he said. "I couldn't do anything but hit it."

The blow cut Cincinnati's lead to 2-1 and left runners at second and third. Pinch hitter Ron Fairly was intentionally walked to load the bases and Tom Hall replaced Carroll, who suffered his second straight loss.

"I know I'm not this bad," said Carroll, who last year set a major league record with 37 saves.

Hall walked pinch hitter Bob Bailey to force in the tying run, then gave up doubles to John Boccabella and Pepe Frias and a run-scoring squeeze bunt to Ron Hunt as Montreal sealed the win.

The Reds had appeared headed for victory after Bench followed an intentional walk to Larry Stahl with his two-run blow in the eighth off winner Mike Torrez, 2-3.

Instead, the Reds found themselves two games behind Western Division-leading San Francisco entering today's 12:30 p.m. contest against the Expos.

Jack Billingham, 2-0, was scheduled to pitch for the Reds against Baylor Moore, 1-1.

Cards Win; All Shun Credit

By HERSCHEL NISSENSON
Associated Press Sports Writer
As befitted a team with a 2-12 record, the St. Louis Cardinals are such a modest bunch that no one wants to take the credit when they score one of their rare victories.

Manager Red Schoendienst shook things up Tuesday night by putting Tim McCarver behind the plate and catcher Ted Simmons in right field and the Redbirds ended their seven-game losing streak with a 2-0 triumph over the Los Angeles Dodgers as Rick Wise pitched a six-hitter. But Schoendienst disclaimed any managerial genius.

"I don't think the shuffling of our line-up made much difference. McCarver was only 1-for-4, Simmons failed to hit in three chances and Bernie Carbo was a defensive replacement for him in the eighth inning."

Ted Sizemore, who doubled home the second run in the fifth inning, wasn't having any of the hero's role, either. "I'm not the hero," he said. "Give the credit to Wise and Jose Cruz. He drove in the first run."

Joe Torre scored the first run in the second inning when loser Claude Osteen walked him and Simmons and Cruz singled, but Torre also didn't think much of his night's work.

"I'm not a hero," he said. "All I did was score the first run of the game and after that I didn't break out in a sweat."

The Cardinals pretty much forced the hero's mantle on Wise, who has pitched both their victories.

Elsewhere in the National League, San Diego overtook Pittsburgh 7-5, Montreal trimmed Cincinnati 7-2, San

Francisco shaded the Chicago Cubs 4-2 in 10 innings, Houston downed the New York Mets 4-2 and Atlanta lathered Philadelphia 11-2.

San Diego had lost four in a row and

had a headstart on No. 5 when Pittsburgh erupted for four runs in the first inning. The Padres pulled to within 5-3, including Leron Lee's solo homer, as they came to bat in the

eighth and tagged Bob Moose and Dave Giusti for four runs.

Montreal and Cincinnati were locked in a scoreless battle for 7½ innings before Johnny Bench belted a two-run single for the Reds. The Expos came back with all seven of their runs in the ninth.

Gary Thomasson's tie-breaking single in the 10th inning sparked San Francisco past Chicago after Ron Santo of the Cubs hit his second home run of the game in the ninth inning to send it into overtime.

Houston rocked New York's Jon Matlack for three runs in the first inning on Cesar Cedeño's run-scoring single and successive RBI doubles by Bob Watson and Jim Wynn and held on to beat the Mets. Watson, who doubled again in the third and scored on Roger Metzger's single, stretched his hitting streak to 16 games, four short of the club record.

Pitcher Carl Morton snapped a 1-1 tie with a two-run double in the second inning and drove in another run with a grounder in the third as Atlanta swamped Philadelphia. Mike Lum and Johnny Oates homered for the Braves.

Circleville Thinclads Crush Miami Trace In Dual Meet

Circleville's cindermen grabbed 12 first place finishes as they rolled over Miami Trace, 87-46, in a dual meet Tuesday on the Panthers' oval.

Tom Frericks and Mike Turner were double winners for the Tigers while Chris Payne came up with a win and a tie.

Frericks captured the shot with a heave of 54 feet and took the discus with a toss of 157 feet 6 inches. Turner won the 100-yard dash in 10.5 and paced the field in the 220 with a time of 24.5. Payne took the 180 low hurdles in 21.6 and tied Jeff Danford in the 120

high hurdles with a time of 16.1.

Other first place spots for the Tigers went to: Reggie Radcliff, pole vault, 11 feet 6 inches; Matt McGowan, mile run, 4:51.7; Doug Radabaugh, 880 run, 2:09; Dick Liston, 2-mile run, 10:17.6; 880 relay team, Turner, Rick Sampill, Wade Camp and Payne, 1:40.4; and the mile relay team, Robin Martin, Frank Plescia, John McCoy and Dave Webb, 3:42.6.

The Tigers also garnered six second spots and grabbed nine third place finishes in the meet.

Circleville will host Greenfield Thursday and be at the Unioto Relays Saturday.

Here are the complete results of the meet:

Fisher Catholic Wins Tri Meet At Logan Elm

Lancaster Fisher Catholic topped a triangular track meet hosted by Logan Elm Tuesday, winning eight events and accumulating a total of 82½ points.

The host school was second with five wins and 50½ points and Westfall third with two wins and 26 points.

The winners for Westfall were Roger Johnson in the 2-mile with a time of 10:49.1 and Randy Metzger in the 880-yard run with a time of 2:12.

Cavaliers Build Base Of Youth

CLEVELAND, Ohio (AP) — The Cleveland Cavaliers upped the bidding the eve before the 1973 National Basketball Association draft got underway Tuesday—swapping away two starters for a chance to build a youthful base under the Cavs.

Heading the list of prospects snared by the Cavs was 6-foot-9 Jim Brewer of the University of Minnesota, a standout defensive center Coach Bill Fitch said can also play at forward.

In a trade engineered just minutes before the draft got underway, the Cavs traded away starters Rick Roberson and John Johnson to the Portland Trailblazers. In return, the Cavs got the early shot at Brewer as well as an additional Trailblazers' choice in the third round.

Cleveland, picking up five players in the first three rounds, quickly added Ohio State University sharpshooter Allan Hornsby, 6-foot-7 forward Jim O'Brien of the University of Maryland, 6-foot-4 Ozzie Edwards of Oklahoma City and Jim Lister, a 6-foot-8 center from Sam Houston University.

OSU's center, Luke, Witte, was selected during the Cavs regular fourth round choice.

"We'll miss both players," Fitch said of the trade with Portland. "But it was a good time for us to make the move. Brewer is a legitimate professional forward and also a very capable center."

"We can't sit still," Fitch said. "Last year we wanted to add age to the club. This year we wanted youth."

For Logan Elm, Seth Driesbach, a freshman, won the shot with a toss of 40 feet 11½ inches, Mark Hawks won the Long jump with a leap of 18 feet 2¾ inches, Keith Weaver won the high jump with a 5-foot-10 effort, Tom Sykes won the mile in 4:43 and the mile relay team was first in 3:52.7.

Here are the complete results of the meet:

Shot put—Driesbach (LE), Ramey (LE), Hegarty (W), Fauble (FC) 40 feet 11½ inches

Discus—Markwood (FC), Driesbach (LE), Dodds (FC), Barr (LE) 122 feet 10 inches

Long Jump—Hawks (LE), Motter (FC), Shank (FC), Sargent (LE), 18 feet 2¾ inches

High Jump—Weaver (LE), Motter (FC), Welch (FC), Hildenbrand (LE), 5 feet 10 inches

Pole Vault—DeMastry (FC), Hegarty (W), Anderson (W), Luckhart (LE) and McGraw (FC) tie, 10 feet 6 inches

120-Yard High Hurdles—Motter (FC), Larger (FC), Mosely (W), Luckhart (E), 17.5

100-Yard Dash—Boyle (FC), Romano (FC), Howard (LE), Malone (W), 10.85

Mile Run—Sykes (LE), Metzger (W), Shonebarger (FC), Tobin (FC), 4:43

880-Yard Relay—Lancaster Fisher Catholic, Logan Elm, Westfall, 1:40.5
440-Yard Dash—Barney (FC), Hawks (LE), Markwood (FC), Day (W), 55.5

180-Yard Low Hurdles—Larger (FC), Welsh (FC), Hulse (LE), Fraas (W), 21.7

880-Yard Run—Metzger (W), Schorr (FC), King (LE), Lewis (FC), 2:12
220-Yard Dash—Romano (FC), Boyle (FC), Duffy (LE), Frazier (LE), 24.6

Rules Clinic Set

The American Softball Association Rules Clinic for slow-pitch softball will be held 1 p.m. May 6 at the old post office building, Chillicothe, which is at the corner of 5th and Paint Sts.

All umpires, players and coaches are urged to attend the meeting. Speaker will be Charles Walker, Jr., state interpreter, who will discuss 100 slow pitch rule changes.

Viking Runners Lose Meet To Marysville

Teays Valley's track squad suffered a 75-42 setback at the hands of Marysville Tuesday in a dual meet on the Vikings' cinders.

Howard Reed was a double winner for the Blue and Gold. He took the discus with a toss of 127 feet 10 inches and captured the shot with a throw of 43 feet 8½ inches.

Other first place finishes for the Vikings went to: Orrin Blanchard, high jump, 5 feet 4 inches; Ron Foreman, pole vault, 9 feet; and Lance Henson, 220-yard dash, 25.9.

The Vikings will be at Wehrle Thursday in a dual meet.

Here are the complete results of the meet:

Long Jump—Diehl (M), Ross (T), Burgoon (T), 17 feet 9 inches.

High Jump—Blanchard (T), Garwood (M), Logsdon (T), 5 feet 4 inches.

120 HH—Garwood (M), Logsdon (T), Dayton (M), 16.3.

Pole Vault—Foreman (T), Fitzpatrick (M), Leibold (M), 9 feet.

100-Yard—Knox (M), Carter (M), Clark (T), 10.9.

Piketon Trips Westfall, 3-1

Mike Peterson of Westfall and Piketon's Petty had one bad inning each as Piketon topped Westfall 3-1 on the Mustang diamond.

Westfall took the lead with a single run in the first inning, but Piketon countered with three runs, one earned, in the fifth inning to drop the Mustangs to 4-5 for the season.

Peterson allowed three hits, singles by Durbin and Smith and a double by Bollestra, while walking 8 and fanning 7 in his seven-inning stint.

Petty fanned 12 batters and walked nine. Both Westfall hits were singles by Glen Bauer.

The Mustangs hope to even their record when they tangle with Logan Elm tonight on the Brave's diamond, weather permitting.

Name NBA Defenseman

NEW YORK (AP) — Dave DeBusschere of the New York Knicks and Jerry West of the Los Angeles Lakers head the National Basketball Association All-Defensive team announced today.

DeBusschere, a forward, made the team for the fifth straight year and was the top vote-getter for the third successive year. West, a guard, made the team for the fourth year in a row in the balloting by the NBA coaches.

Joining them on the first team are John Havlicek of Boston at forward, Wilt Chamberlain of Los Angeles at center and Walt Frazier of New York at guard.

CHS Reserves Trip Braves

Circleville's reserves jumped out to an early lead and then held off a determined Logan Elm squad to gain a 6-4 decision Tuesday on the Tigers' diamond.

The Red and Black tallied five runs in the first inning and added a lone tally in the second to garner the victory. Logan Elm scored a single run in the top of the first and battled back with three in the third but were shutout the rest of the way.

Robin Ott hurled the win for Circleville. He gave up five hits, fanned three and didn't issue a walk in the contest.

Steve Marshall was on the mound for the Braves. He allowed six hits, walked four and struckout seven.

Pat McNaughton rapped a double and single to pace the Tigers attack while Mark Mace, Phil Roll, Rod Wolfe and Ott each had a single.

Steve Rawlins slammed a double for the Braves with Derek Morris, Jeff Reichelderfer, Black and Marshall each ripping a one-bagger.

Circleville is now 2-0 for the season and will be at Miami Trace Thursday.

The beak of the Baltimore oriole is conical and longer than the head.

Crime Rampant In Suburb Of Rio De Janeiro

NOVA IGUACU, Brazil (AP) — This suburb of Rio de Janeiro is fast gaining a reputation as one of the toughest towns in South America.

Stories of crime and violence in

Nova Iguacu appear almost daily in newspapers throughout Brazil.

Some recent highlights:
—Two armed men tried to hold up the fare collector on a city bus.

Eighteen of the 20 passengers pulled out guns, shot one of the robbers dead and wounded the other.

—A truck driver called for help after a daylight stickup. Passersby converged on the fleeing gunman and beat him to death.

—A local resident strangled a prostitute he had been living with and stuffed her body into a septic tank, following an argument. A jury acquitted him, on grounds he was "defending his honor."

—The Nova Iguacu "death squad," a vigilante group said to be made up of off-duty policemen, killed 250 local underworld figures in a single year in an attempt to "clean up" the town.

—A delivery man was held up at gunpoint by a man riding a horse.

"Nova Iguacu has been the victim of a campaign of sensationalism," says Police Chief Luiz Gonzaga. "Of course we have crime. But our rate is lower than that of Rio or New York."

He did not, however, have the rate

figure for Nova Iguacu.

A notice outside the chief's door asks civic-minded citizens to blow the whistle on "disorderly persons, burns, drug addicts, people walking around armed, robbers wanted by the authorities, numbers racket headquarters and bordellos."

Located 15 miles from downtown Rio, Nova Iguacu grew in population from 33,000 in 1920 to 146,000 in 1950 to 750,000 today. People from all over Brazil streamed into the city to find work in the prosperous Rio area. Public services could not keep pace with the uncontrolled and unexpected growth.

As a result, Nova Iguacu today lacks paved streets, piped in drinking water, telephones, schools, hospitals and police protection.

"Nova Iguacu is an El Dorado," said Gonzaga, 47, a thin, soft-spoken father of eight who has devoted nearly half his life to police work. "Where there is progress, there is crime. Criminals are

attracted to Nova Iguacu like moths to light."

"You'd need the entire Brazilian army to get rid of all the crooks here," the chief said.

Gonzaga's force is made up of about 100 inspectors and patrolmen and seven police vehicles. Most of the latter are usually in the repair shop.

By contrast, Washington, D.C., which is about equal to Nova Iguacu in population, has some 4,800 uniformed policemen.

When citizens come to Nova Iguacu police headquarters to file a complaint, sometimes the only way they get an officer to investigate is to take him to the scene of the crime in a taxi. The complainant must pay the cab fare.

The police station in one district of the city, called Queimados, population 200,000, has no telephone. "If something important happens in Queimados, the assistant chief there comes over here and tells me," Gonzaga said.

Missent Package Brings Arrest

DUNBAR, W.Va. (AP) — Authorities have arrested a 24-year-old man following confiscation of a United Parcel Service shipment containing 36 pounds of marijuana and five grams of hashish that was delivered to the wrong address.

The arrest of Thomas Ray Jackson of Institute Monday followed delivery of the two cartons to a Dunbar business, according to Emmett Jones, acting chief of police here. An employee opened the cartons, recognized the contents, and called police, Jones said.

Jackson apparently phoned UPS to find out if the boxes had been shipped and where they had been delivered, and then "checked with the business to see if they were there," Jones explained.

A Free Press Protects Your Free Speech...

Judges are jailing reporters with increasing frequency, because they refuse to reveal news sources. The result can only be a drying up of these sources of information and impede your right to know what's happening in your government.

Free speech and a free press are guaranteed by the Constitution to the people generally — not to any individual or business.

Everyone also has the right to know what's being offered in the Marketplace. The right of choice in all goods and services keeps the system of competition working for everyone's progress.

Consequently, when our freedom of the press is restricted, your free speech is also restricted.

Your free speech depends on a free press.

Here's What Theodore Roosevelt

26th President of The United States
said about the importance of a Free Press:

"If there is one thing we ought to be careful about it is in regard to interfering with the liberty of the press... I think it is a great deal better to err a little bit on the side of having too much discussion and having too virulent language used by the press, rather than to err on the side of having them not say what they ought to say, especially with reference to men and measures."

The next time you get mad at a news story, remember that a free press provides you with the information that keeps our country free.

THE CIRCLEVILLE HERALD

Here's What James Madison

4th President of The United States
said about the importance of a Free Press:

"Nothing could be more irrational than to give the people power, and to withhold from them information without which power is abused. A people who mean to be their own governors must arm themselves with power which knowledge gives. A popular government without popular information or the means of acquiring it is but a prologue to a farce or a tragedy, or perhaps both."

POOR GENIUS—Gregg Wellman, a 14-year-old University of Michigan freshman, has been turned down for a scholarship. University officials said scholarship funds are reserved for the "disadvantaged" and not for the gifted. His mother, Mary Ann Wellman, said Gregg, who has an I.Q. over 160, was treated as an "oddball" by his grade school teachers.

Ohio Volunteers Launch Big Drive On Mosquitoes

GAMBIER, Ohio (AP) — Teams of volunteers from Kenyon College and Gambier have already launched the first salvo in a battle against brain disease-carrying mosquitoes.

The volunteers started Saturday, collecting trash, and marking trees and other likely spots for breeding of the encephalitis-carrying aedes mosquito.

The chief of the Department of Health in Columbus, Dr. John Ackerman said, "we look for a tremendous amount of mosquitoes this spring."

He said while our total rainfall is down a bit we've had almost constant rain for the last weeks. He pointed out that with lake Erie flooding and rivers being high, there's lots of standing water.

"And that means lots of mosquitoes and more chance of having more encephalitis."

Four cases of California encephalitis were recorded last year in Gambier, which has a population of 1,571. A total of 25 to 30 cases of the disease, which strikes mainly children, are usually reported in the entire state.

Dr. Ackerman said the figures don't include mild cases that might not be detected and other cases that don't get reported.

British Women Protest Queen's Pres Spokesman

LONDON (AP) — A woman has the top job at Buckingham Palace, but women's libbers are angry because another woman has been named Queen Elizabeth's chief press spokesman.

When he job became vacant last week, television sports reporter Ronald Dixon was chosen over Anne Hawkins who has been No. 2 in the palace press office for 15 years.

"That job, say palace officials breaking into a hot embarrassed sweat at the thought, is not for a woman," Lynda Le Potter of the Daily Mail reported. "Goodness gracious, they infer, lapsing their well bred forehead and shaking with horror, we couldn't by gad, we couldn't give the job to a frail gentle lady."

"Miss Hawkins, they admit, is super efficient invaluable and a walking director, but taking royal tours, bundling through mobs is no place for a woman."

Woman Wins Big Malpractice Suit

CLEVELAND, Ohio (AP)— Mrs. Thelma Ross, whose daughter suffered brain damage while in childbirth in 1964, has received a \$450,000 settlement in malpractice suit against St. Luke's hospital and four doctors.

The settlement, one of the largest recorded here in recent years, was reached before jury selection began in Common Pleas Court Tuesday.

The lawsuit said the daughter, Pearl Evans, who was 18 at the time, suffered brain damage as a result of an improperly administered anesthetic. An attorney for Mrs. Ross said Pearl Evans was left severely retarded and now has the mental capacity of a 3-year-old.

into the reports. The usual symptoms of encephalitis are headaches, vomiting and fever. Ackerman said some cases result in delirium, loss of consciousness and seizures. Two deaths from the disease have been reported in Ohio since 1964, Ackerman said.

He said one of the most difficult problems in combatting the carrier mosquito, which is a second cousin to the yellow fever-carrying variety, is the fact that only small quantities of water are needed for breeding, some in the cracks of trees.

He said the disease shows up "most heavily in the central and northeast counties...but practically every county in Ohio has had cases in the past few years."

The department will be trying to cut the number of mosquitoes this spring by fogging, a means that sometimes brings environmentalists into the picture, Ackerman said.

"We are extremely careful," he said. "We have no desire to kill helpful insects and we use a low-power chemical."

OEO's Fate In Hands Of Congress

WASHINGTON (AP) — A judge's refusal to reverse his order halting the dismantling of the federal antipoverty agency temporarily puts the future of the Office of Economic Opportunity in the hands of Congress.

Congress must appropriate additional funds if the agency is to survive beyond June 30.

Judge William B. Jones Tuesday denied a government motion to stay his April 11 order blocking OEO's dismantling or permitting the administration to proceed with the scheduled April 28 closing of 10 regional offices and the shifting of some programs to other agencies.

An OEO spokesman said Judge Jones' decision was taken under advisement.

The Justice Department, which is defending the suit on behalf of the OEO, has 60 days in which to appeal the decision. A department spokesman said no final decision has been made on whether to appeal the original order or Tuesday's decision.

Howard Phillips, acting OEO director, told agency employees March 12 that regional offices should be prepared to close by next Saturday.

A five-day notice of reduction in force is necessary before an employee is dismissed. No such order has been given.

Male, Female Roles Flipped For Upcoming Raft Voyage

PARIS (AP) — Women will hold the key command posts and men will serve in subordinate roles on a raft as it drifts across the Atlantic next month for an experiment in roleswitching.

A Swedish woman captain and an American woman navigator will head the raft Acali for the study of friction between women and men when traditional sex roles are reversed and nationalities and cultures are jumbled. The crew will have seven women and six men from 12 countries.

Anne Turner, a psychologist in Paris who helped recruit the crew, said in an interview:

"The men will be doing subordinate things like taking pictures and doing

the cooking. The woman captain has absolute charge of the raft.

"The odd-numbered crew may be an element in making tensions. Married people were chosen because this fact presents a whole range of problems that the crew will have to come to terms with. Sexuality is a part of the study, but not the prime area. There will be frictions enough as it is."

The organizer of the expedition is Santiago Genoves, a Mexican anthropologist who was a member of Thor Heyerdahl's "Ra" expeditions. He will make his own study of behavior on the raft and a government-owned Mexican television station, which has put up \$160,000, will film the trip.

The raft was described as about 21x36 feet, supported by steel pontoons. The trip is expected to take between three and six months with departure from the Canary Islands between May 1 and May 15. The raft is expected to wash up somewhere along the Yucatan Peninsula.

The crew members are between 25 and 40 years old.

The Americans were identified as Mary Gidley, the navigator and Evangelina Seymour, the technician.

WASHINGTON (AP) — Some divorced parents will gain or lose their children as tax exemptions as a result of a new Internal Revenue Service ruling. Because of an unusual retroactive provision in the rule, both divorced parents also may be able to count their children as exemptions for the past three years in some cases. A spokesman for the Internal Revenue Service Tuesday said it expects amended returns retroactive to 1970 will be filed by some divorced parents who will want to take advantage of the ruling. The parent who contributes more than half the support of a child is en-

titled to claim the child as an exemption. Under the new rule, support provided by a new spouse may be used to determine which of the divorced parents contributes more than half of the child's care. Previously, support provided by a new spouse could not be included in this computation. An IRS spokesman acknowledged that the result of the ruling could be to take the exemption from one parent and give it to the other, but he said there was no estimate on how many divorced parents might be so affected. The ruling is effective with the 1973 tax year. It also is retroactive to the

1970 tax year in cases where it will give a parent a tax benefit, but would not be retroactive where it would cost a parent an exemption in past years. A spokesman said the savings for some divorced parents could be significant for past years and said they may want to file amended returns, using Form 1040 X. **Body Recovered** MARIETTA, Ohio (AP) — The body of Willard Hossman, 12, of Monroe County, who drowned April 8 when a canoe capsized during a Boy Scout outing, was recovered from the Muskingum River Tuesday about five miles from where the mishap occurred.

RIDING HERD—Special deputy Paul Hughes of the Marin Sheriff's posse patrolled Muir Beach, Calif., to keep the bathers from going nude. Hughes' assignment came about because homeowners, while not down on nudity per se, had expressed complaints to the city fathers about voyeuristic gawkers who trampled lawns and stopped traffic in their quest to eye undraped sunbathers. No arrests were made.

Saturday Review Bankruptcy Petition Bares Merger Plan

SAN FRANCISCO (AP) — The publishers of the four Saturday Review magazines have filed bankruptcy petitions here and say they plan to merge the publications with World magazine to form a new biweekly.

The merged publication would be run by Norman Cousins, now World's editor and for 30 years editor of the Saturday Review until he withdrew from it in a dispute with the publishers in 1971.

Saturday Review's publishers said the four monthly magazines would suspend publication until completion of the reorganization under the federal Bankruptcy Act.

In New York, Cousins called the merger "a natural one" and tentatively set the first issue for early summer.

At the magazine's offices here after the announcement Tuesday, about 100 employees—sipping warm bourbon from paper cups—milled about unhappily. Some sobbed. Cousins subsequently confirmed fears that the new magazine could not afford to continue many of them on the payroll.

Cousins said the biweekly will be called "World-Saturday Review," "Saturday Review of the World" or something similar.

Frederick S. Wyle, chairman of the Saturday Review's executive committee, said the merger between the 48-year-old publication and World

Hold Woman For Mailing Dead Snake

CLEVELAND, Ohio (AP)—A 22-year-old Lakewood woman faces federal charges for allegedly mailing a dead snake to her ex-husband's former sister-in-law in Tucson, Ariz.

Mrs. Patricia Ann Will was arrested Tuesday on a complaint filed by Tucson postal inspectors, who said Mrs. Will mailed the snake knowing that Mrs. Neva Will Breyner had a phobia about the reptiles.

Mrs. Will's ex-husband, Robert H. Will, said the snake was sent gift-wrapped as a birthday present.

He said Mrs. Will knew Mrs. Breyner had once been bitten by a rattlesnake and was terrified of snakes.

Will said he learned that his former wife was mailing a "gift" to Mrs. Breyner and alerted her to watch for the package.

Mrs. Will was charged under a federal law forbidding the use of the U.S. Postal Service to send poisonous animals or anything that might harm or kill another person. Maximum penalty under the charge is a \$10,000 fine and 20 years imprisonment. Mrs. Will was released on \$3,000 bond after appearing before U.S. Magistrate Herbert T. Maher.

Firm Turns Creek Red

ASHTABULA, Ohio (AP)—The New Jersey Zinc Co. notified state Environmental Protection Agency officials Tuesday that the company had turned Fields Brook red.

Company spokesman Les Howard said an accidental spill of a nontoxic iron precipitate turned the two-mile-long creek red. An EPA official said the Ashtabula River also was tinted red all the way to Lake Erie.

Howard said the spill had been brought under control and that the substance was harmless.

However, the company reported the incident to the EPA's district office at Cuyahoga Falls. An EPA official said the district office reported it to the EPA emergency center at Columbus. The EPA in Columbus, in turn, reported it to the federal EPA, the official said.

Darryl Senskey of the Cuyahoga Falls office, said samples were taken from Field Creek for further testing.

Ernest Truitt.

Ohio Cities Get Study Grants From Foundation

WASHINGTON (AP) — Two Ohio cities were included in grants announced Tuesday by the National Endowment for the Arts in the first phase of a program to help municipalities solve problems of urban design and planning.

The Cincinnati Institute will receive \$40,000 to study the city's outstanding physical characteristic, its steep hill-sides separating sections of town.

Columbus has been granted \$40,000 to study seven waterways that flow through Franklin County and Columbus with a view toward enhancing the major river corridors.

The National Endowment is an independent agency founded in 1965 to encourage and assist the nation's cultural resources.

Kenneth R. Thompson and his South Vietnamese wife remain confident they will be able to bring their children to the United States.

"One way or the other we will get them here," Thompson said Tuesday. "It's just a matter of time and finding a way."

It all began three years ago when Thompson, stationed in Vietnam with the Air Force, fell in love with his wife-to-be, Mien, a South Vietnamese nurse, after meeting her at a dance.

But the Air Force denied them permission to marry, and Thompson returned to the United States in 1970, leaving Mien and her two children by a previous marriage behind.

A year later, Mien obtained a passport, but her children, Huynh Ngoc Mai, 11, and Huynh Thi Phuong, 7, were not permitted to leave Vietnam because she had no legal husband.

The couple was married in July, 1971, and since then Mr. and Mrs. Thompson have been trying to get permission for the two children to emigrate to America.

About a year after their marriage, Mrs. Thompson returned to South Vietnam to try once again to bring the

children to the U.S. For awhile it appeared she was going to be successful.

Illinois Tests Drivers At Night

CHICAGO (AP) — High-level lighting systems at three driver test centers here have accomplished two beneficial results — efficiency of the stations is up and irritation associated with having a student driver in the family is down.

The systems, consisting of 1,000-watt Metalarc lamps in Acre-of-Lite fixtures, made it possible for the state of Illinois to extend driver tests beyond daylight hours. Both the lamps and the massive fixtures, which spread an average of 5 foot-candles of light per acre of ground, are produced by GTE Sylvania Inc.

The lights were installed to make it easier for working parents who found it inconvenient to accompany their student drivers to test centers during normal working hours. The longer operational hours also greatly increased the testing capacity of the centers. About 43 per cent of all tests are performed under lights.

"She was ready to come back in October, 1972," Thompson said. "She had passports with the two children's pictures on them. They were all stamped. There were no problems on the American side."

But the arrangements collapsed in the midst of red tape, Thompson said.

"As in most everything in Vietnam, you have to pay someone off," he said. "The lawyer didn't pay everyone off."

Thompson estimated his wife paid out \$2,000 in bribes to South Vietnamese officials and spent about \$13,000 trying to get his step-children to the United States.

Now he is awaiting replies to his fourth letter to the U.S. Embassy in Saigon and the South Vietnamese Embassy in Washington.

"This is just stalemated," he said. "They will not move when talking to an individual. You have to have some backing. The Vietnamese will respond only to a group or political pressure, not just any individual."

A blasting cap contains enough explosive to blow off a hand or blind a person permanently.

CARROLL RIGHTER'S HOROSCOPE

from the Carroll Righter Institute

GENERAL TENDENCIES: The long-range plans you make now have a good chance of success. Get in touch with friends and acquaintances and discuss with them exactly where they can fit into these plans that are vital to your own advancement. Show others you are aware of their wishes and their needs and keep cheerful.

ARIES (Mar. 21 to Apr. 19) Plan how to gain those personal aims that mean a great deal to you and use more up-to-date system for best results. Fine day for the social side of life. Meet the persons who can be of help to you in the future.

TAURUS (Apr. 20 to May 20) Explain your ideas to associates and other key persons who can help you make mutually profitable plans. Some public affairs can be handled with relative ease. Enjoy the cultural.

GEMINI (May 21 to June 21) Get out of that dull routine which is so comfortable and into new outlets that are more interesting and very profitable as well. Show you can make changes with ease. Get the data you need from a new associate.

MOON CHILDREN (June 22 to July 21) Handle your affairs in such a way that you gain the goodwill of business people with whom you deal, and more respect as well. Mate is more willing to go along with your modern ideas.

LEO (July 22 to Aug. 21) You now see clearly what is wrong in your business operations and can do much to change them. Civic work handled now can improve your image greatly. Use caution in all things, especially in driving.

VIRGO (Aug. 22 to Sept. 22) You are able to handle all that work ahead of you with such efficiency you will make a fine impression on bigwigs and coworkers as well. Continue with the modernization of wardrobe you started yesterday.

LIBRA (Sept. 23 to Oct. 22) You are now able to get good friends to cooperate more so you gain your finest aims by way of the social ladder. Do enough in a business way so you feel secure, but otherwise the social is best during day and p.m.

SCORPIO (Oct. 23 to Nov. 21) Pay more attention to what kin desire of you and try to please them. Begin a new project that can prove to be most profitable in the future. Keep busy and you keep happy and out of trouble.

SAGITTARIUS (Nov. 22 to Dec. 21) Think out how to make your life easier and more profitable at the same time via new interests. Speak out honestly but tactfully for the benefit of others. Take it easy tonight.

CAPRICORN (Dec. 22 to Jan. 20) Consult with experts so you know how to improve your financial status now. Use intuition and rise above limitations. Make your routines more efficient and easier at the same time.

AQUARIUS (Jan. 21 to Feb. 19) The right time to get your personal affairs better organized for the future, combining the best of the past with the best of the new. Strive for more harmony with old friends. Contact them early.

PISCES (Feb. 20 to Mar. 20) If you study yourself and your interests well, you know where to make the right improvements that are necessary. Listen to what an expert has to suggest, also. Avoid the social in p.m.

IF YOUR CHILD IS BORN TODAY . . . he or she will be one of those delightful young people who sees the world through rose-colored glasses and his fellowman in the finest light, so slant the education along lines that will place your fine youngster in the public eye where much success is possible. Anything from the field of diplomacy to acting is excellent. Religion will be a natural, although sports will hold little interest for your son or daughter.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU!

Views On Television

NEW YORK (AP) — It's hard to believe, but there's a guy running loose who says he's got a different kind of new mystery series. What makes me agree with him is that the series is for radio.

He's Jay M. Kholos. He's from Los Angeles, where many strange ideas often occur. The strangest is that someone these days can sell a half-hour, five-day-a-week radio series, complete with sound effects.

But the selling is brisk, according to Kholos, who says 110 radio stations in the United States already have bought the new series, called "Zero Hour." He hopes to have a total of 300 stations signed up by July.

If you are a confirmed television buff, you may think Kholos has a screw loose. But if you are a radio freak, you may see—or hear, as these cases may be—what he's up to.

There's been a gradual nationwide revival of old radio series like "The Lone Ranger" and "The Green Hornet." Charles Michelson, a New Yorker who leases these and other shows to radio stations, says more than 400 stations now are carrying them.

What Kholos, a Los Angeles advertising man, is doing is simply coming up with modern versions of the good old days and, as he puts it, "trying to anticipate a trend."

"We feel there's going to be a demand for new shows on radio, so we wanted to be the first one out of the box with it. This is the first time this has been done in well over 20 years."

A few established

Hollywood stars have joined the effort. Writer-producer Rod Serling will be the host of "Zero Hour." The series' premiere week will star Howard Duff, Patty Duke and John Astin.

The show will take the form of a five-part story each week, with four of the segments ending with a cliff-hanger and the admonition to tune in tomorrow and see who survived what.

Ironically, Kholos barely remembers the golden days of radio. He's only 32.

"I used to hide the radio under the pillow at night and listen to the old shows," he said. "But they went out before I really had a chance to get into them."

100 Million Trees From 1 Company

TACOMA, Wash. (AP) — In an effort to ensure that America's grandchildren will have sufficient lumber supplies, Weyerhaeuser Co. has begun planting a record 100 million new trees this year.

The company, one of the nation's largest forest products firms, is planting the seedling in Arkansas, Alabama, Oklahoma, North Carolina, Mississippi, Washington and Oregon.

Weyerhaeuser foresters are using extensive forest practices such as this year's massive planting to keep pace with America's growing appetite for wood supplies—nearly 200 million tons each year, or twice the annual production of steel in the U.S.

Paris Airport Fights Noise

ROISSY, France (AP) — The French are building Europe's largest airport in this flatlands of beet fields and peaceful villages near Paris. If you pass through on vacation, you'll have to pay a tax to protect the villagers from jet roar.

A government decree, said by officials to be the first for a major airport anywhere in the world, provides for the tax on every departing passenger to help pay for relocating people who don't want to live near the airport or for soundproofing the homes of those who want to stay.

The government imposed the tax because of pressure from groups in the Roissy area and in Villeneuve le Roi, a town at the end of the main runway at Orly Airport south of Paris.

Villeneuve residents have been living under the roar for a dozen years, with a jet taking off or landing at Orly every 90 seconds at peak periods.

Logan Elm Board Stalls Employment

Employment of all certificated personnel in the Logan Elm District was delayed until May 9—after the outcome of the operating levy on the ballot is determined.

The board met with all district administrators to discuss teacher employment, but voted to hold off on awarding contracts. Extracurricular duty assignments were also postponed.

Ways of providing the public with information about the operating levy were also discussed.

Paul Brown, principal at Washington School, requested permission to donate several old desks, pictures and a tape recorder to the PTA to be sold at the White Elephant sale held during the Washington School Carnival. The board did not sanction the sale of any other items.

Participation was continued in the Title VI program, with other Pickaway, Fairfield and Franklin County schools. The federal program offers special services and planning in special education and instructional materials at no cost to the district.

Superintendent John Henn was authorized to vote in behalf of the board at the Earnhart Water District annual meeting May 17.

Rural Orient Barn Destroyed By Fire

Fire destroyed a wood frame barn on Mantel Rd. 2:48 a.m. Wednesday, according to a report at the Pickaway County Sheriff's Department.

Mt. Sterling firemen claimed the barn a total loss, but said there were no contents in the building.

A passing motorist spotted the flames and awoke Mrs. Irwin Hashman and her daughter, Route 2, Orient, who live on the property.

Firemen reported that the same man directed them to the scene of the fire.

City Receives Added Liquor Permit Fees

State Auditor Joseph T. Ferguson announced today a supplemental payment of \$123.76 to Circleville in 1973 liquor permit fees. The fees represent filings of new liquor permit applications since the annual permit renewal date last September.

"We don't want to end up like the poor people at Villeneuve," says Pierre Bories, a 43-year-old lawyer who heads a community organization in the Roissy area 17 miles north of Paris.

He estimates a quarter of a million people in 45 towns and villages around Roissy will suffer "noise nuisance" when the airport takes over from Orly as France's chief gateway.

Some villages such as Le Mesnil Amelot date from the 15th century. Its 560 inhabitants will be less than a mile from the end of a runway, and the village may have to be abandoned.

The Roissy airport is a sprawling complex one-third the area of the city of Paris and much larger than Kennedy International Airport in New York. It has futuristic architecture and by 1985 will be able to handle 60 million passengers a year.

The \$355-million first stage going into operation next spring will handle 10 million passengers a year by 1977, officials predict, with a plane landing or taking off on an average of every three minutes around the clock.

The noise tax began last February for travelers from Orly and the third major Paris airport, Le Bourget. It will be collected at Roissy as soon as the airport opens next spring.

Unofficial estimates show the tax—

Driver Forces Car Into Ditch

Deborah R. Snyder, 17, Route 2, Williamsport, escaped serious injury 7 p.m. Tuesday, when an oncoming car forced her to drive her vehicle into a ditch on the Frankfort-Westfall Road.

Deputy Sheriff Jim Deal said seat belts probably saved the girl from suffering serious injuries. She was referred to a doctor for treatment of forehead and face abrasions when her head was thrown into the windshield.

The deputy said Miss Snyder was driving south on the township road when an oncoming vehicle went left of center and forced her to drive into the right ditch.

Youth Injured In 2-Car Crash

A 17-year-old Circleville youth was injured in a two-car collision 7:37 a.m. Wednesday at Pickaway and Logan Sts.

Jeff Knece, 162 Third Ave., was treated at Berger Hospital for chest injuries suffered when his car collided with an auto driven by Dennis Compher, 17, 1029 S. Washington St.

According to the report of Ptl. Jim Francis, Knece was northbound on Pickaway St. Compher was westbound on Logan St. Compher had stopped for the stop sign at Pickaway St. and then pulled into the path of the Knece vehicle.

Francis cited Compher for failing to yield the right of way to an oncoming vehicle.

Liquor Permit Suspended 7 Days

The Ohio Department of Liquor Control announced today the 7-day suspension of the liquor license of James L. Gregg, Ashville, for sale of beer to minors.

The execution of the penalty was suspended until Feb. 1, 1974, and in the event Gregg is not convicted of any further violations during the period, the penalty is to be remitted without further action.

22 cents a passenger for interior flights and 66 cents for international travel—will bring in about \$3½ million in 1973. With air traffic in France increasing about 14 per cent a year, the fund will grow proportionately.

Nobody professes to know how the money will be distributed. Bories and other antinoise leaders suspect it will not be enough and fear government red tape will slow the expected relief anyway.

Women Earning Less Than Men At Universities

WASHINGTON (AP) — Women working full-time on the faculties of the nation's universities are earning an average of \$3,500 less than their male counterparts, the Department of Health Education and Welfare said today.

The salary differential at two-year colleges was smaller, but HEW said women still averaged \$1,027 less than male staff members.

The figures were contained in a study of university and college faculties done for HEW's Office of Education. The survey provided estimates for the 1972-73 school year, and dealt with full-time college and university faculty members on nine- and 10-month contracts in all 50 states and the District of Columbia.

The average for all institutions—universities, four-year colleges and two-year colleges—showed women earning \$2,500 less than men, the report said.
